

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

HOUSE JOINT MEMORIAL NO. 1.

To the Honorable, the Congress of the United States:

Your memorialist, the Legislative Assembly of the State of Oregon, respectfully represents:

WHEREAS, Tillamook county is now offering great inducements to immigration for settling upon its vacant lands;

WHEREAS, Coal has been found in promising quantities to insure the investment of capital to develop the same. Silver mines are now being worked with most flattering prospects, sawmills and fisheries being in active operation;

WHEREAS, The shipping and commercial interests of Tillamook have been and are being largely increased, demanding better facilities for the successful navigation over the bar at the entrance to Tillamook bay;

Be it therefore resolved, That our Senators and Representative in Congress use every means to have and keep the entrance to Tillamook bay, and so far up on the bay as may be deemed necessary, fully buoyed, so as to improve and better afford the safe navigation of the same, and we shall, as in duty bound, ever pray.

the head of navigation, and below, by reason of sunken snags and debris, threatening in a short time the utter loss of the greater part of said river for navigable purposes, and therefore your memorialists pray that Congress grant such aid as shall be adequate to answer the said necessities.

Mr. Speaker—By direction of the Senate I transmit herewith a communication from T. B. White, Commissioner for the State of Oregon at the World's Exposition at New Orleans, La., to be read to the House, after which you are requested to have it returned to the Senate.

(Signed)

J. W. STRANGE,
Chief Clerk.

Mr. Montanye moved that the foregoing mentioned communication be spread upon the minutes, which prevailed.

Following is the communication:

COMMUNICATION.

To the Honorable Senate and House of Representatives, State of Oregon:

GENTLEMEN—Having spent several days in New Orleans visiting the World's Exposition, I feel prepared to make some statements of significance.

The wonders of that vast collection from the ends of the earth make it a peculiar means of information, and a study for all. I would advise and recommend every one who can to visit this wonderful and unprecedented industrial exposition.

The "management" seems to be doing its utmost for the success of

the enterprise. I hope their large and generous measures will meet with a hearty and noble response from our whole country.

The multifarious exhibits from the States and Territories of our own loved country point us out as the greatest nation on earth; the plain exhibit of our own loved State of Oregon most clearly places us among the very foremost in cereals, grasses, vegetables, fruits, fish, etc. Other States have made large appropriations of money which has been used lavishly in making the most unique and artistic display of their exhibits. Oregon is *simple, plain, matter of fact*, and speaks for itself with a force and emphasis that will point the industrious, thrifty emigrant to our fair land.

I respectfully suggest and request you, in your Legislative capacity, as soon as possible, make such appropriations as you deem fitting to renew and keep up the supply of fruits, vegetables, etc., now on the table but *fast decaying and almost gone*. I respectfully ask your speedy attention to this.

Respectfully,

T. B. WHITE,
Commissioner.

NEW ORLEANS, La., January 1, 1885.

COMMUNICATION FROM THE SECRETARY OF STATE.

STATE OF OREGON,
OFFICE OF THE SECRETARY OF STATE,
SALEM, January 19, 1885. }

To the Honorable the Speaker of the House of Representatives of the Legislative Assembly of the State of Oregon:

SIR—I have the honor to return to your honorable body H. B. No. 44, an "Act regulating the amount to be paid on a policy of insurance," which was vetoed by His Excellency, the Governor, under date of October 26, 1882, and returned to this office within the time prescribed by the Constitution. The reasons assigned for said veto will be found embraced in the executive endorsement attached to said bill.

Very respectfully,

Your obedient servant,

GOVERNOR'S MESSAGE.

EXECUTIVE OFFICE,
SALEM, October 26, 1880. }

Gentlemen of the House of Representatives of the State of Oregon:

I respectfully return to you herewith with my disapproval H. B. No. 44, for "an act regulating the amount to be paid on a policy of Insurance," as I believe that the tendency of this bill to work against the insured.

The first section of the bill provides: "That the amount of insurance written in a policy of insurance on all buildings insured after the passage of this act shall be taken and deemed the true value of the property at the time of the loss, and the amount of the loss sustained, and shall be the measure of damages." This section is so ambiguous

that a determination of its meaning is very difficult. A reasonable construction of the second clause of the section makes provision that the amount written on the face of the policy *shall be deemed the amount of the loss sustained*, whether that loss be partial or total, and whatever may be the actual value of the property destroyed. A like construction of the third clause of the section would make it provide that in case a property holder having a building worth, say \$10,000 with \$5,000 insurance upon it, should have half of the building destroyed by fire, he could recover but \$2,500, as that would be one-half of the value of the building, a fact conclusively shown upon the face of the policy. This would work an injustice in the great majority of instances, as there are few property owners who insure for actual protection against loss who do not also carry a certain amount of risk themselves.

Another objection to the bill arises from the fact that insurance is often written for a number of years, and the value of a piece of property at the time of insurance might seriously depreciate before the end of the term of the policy.

In this case, though the policy at its issuance might have represented the true value of the property insured, before its termination it might far exceed it. The obvious tendency of this would be to enhance the rate, or exclude a large amount of property from the benefit of insurance. Owners, too, of valuable property usually place their insurance in different companies to avoid risking all in any one company. If this bill should become a law it would prevent this, as whatever sum is designated upon the face of the policy must be accepted as the value of the property insured.

The temptation to over-insurance of property would, as I believe, under this bill, be generally increased, if it be accepted as a reasonable construction of the terms of the bill that the face of the policy is in all instances to determine the value of the property destroyed, and is therefore presumably to weigh more heavily than all other evidence in adjusting losses. No law should be approved which encourages collusion between insurance agents and property holders, that offers premium on fraud, and that leads to over insurance and consequently increase of risk from incendiary fires.

Believing, as I do, that this bill would not meet the end for which it is designed, and that the result of the enactment of such a law would be increased risks of fire and increased rates of insurance, I am constrained to withhold my signature.

Z. F. MOODY,
Governor.

H. B. No. 44, 1882, an act regulating the amount to be paid on a policy of insurance.

Be it enacted by the Legislative Assembly of the State of Oregon:

SECTION 1. That the amount of insurance written in a policy of insurance on all buildings insured after the passage of this act, shall be taken and deemed the true value of the property at time of the loss, and the amount of the loss sustained, and shall be the measure of damage, unless the insurance was procured by the fraud of the insured, or the loss was caused by the criminal act of the assured. It shall be lawful for any insurance company liable to pay losses occasioned by fire, to rebuild any structure or building wholly or partially destroyed of the same style and materials and of equal value with the one so wholly or partially destroyed, that they shall make their election so to do within thirty days after notice of loss; in case there is a partial destruction of the property insured no greater amount shall be collected than the damage sustained.

Passed the House October 11, 1882.

GEO. W. McBRIDE,
Speaker of the House.

Passed the Senate October 18, 1882.

W. J. McCONNELL,

HOUSE JOINT MEMORIAL NO. 7.

To the Honorable. the Senate and the House of Representatives of the United States, in Congress assembled:

Your memorialists, the Legislative Assembly of the State of Oregon, most respectfully represent:

That we have read with astonishment and regret the bill as reported from the Committee on Public Lands by Hon. J. N. Dolph, Senator from this State, amending the act for the sale of timber lands in California, Oregon, Nevada and Washington Territory so as to throw open all the fine timber lands of the great Northwest to the grasping power of combined capital, and most earnestly urge that his proposed amendment be rejected.

That, under existing law, the settler seeking a home upon the public domain can select from our forest lands and thereby reap the double advantage of securing valuable timber and excellent soil. Under Senator Dolph's proposed amendment these privileges would be taken from the settler in the near future, as their lands would soon pass into the hands of wealthy corporations.

That, as the Forest Grove and Astoria land grant is now forfeited, the northwestern portion of this State will soon receive a large immigration of actual settlers upon these lands, and thus contribute to the general wealth and prosperity of the State, as also to the pioneer settlers already there, by aiding them in building roads, organizing schools and establishing trade.

That this uncalled for amendment is not in the interest of the poor man, the settler, or the general welfare, but wholly in the interest of the money power, as is also his proposition to reduce the price of coal lands.

It is against the benign public policy which would save our magnificent forests from the ruthless grasp of capital, and our public domain for the actual settler.

That, as a people, we are unalterably opposed to both propositions, believing it would be against public policy to lock up, in large tracts, our coal and timber lands in the hands of corporations, which, if in small tracts, would be developed at an early day, enriching alike the energetic laborer and the State.

Therefore your memorialists pray your honorable body to reject the propositions referred to, and also all others in which is couched any design to pass the public domain into the hands of monopolists.

Mr. Chandler moved to adopt H. J. R. No. 7.

Ayes and nays called for by Messrs. Cyrus and Leinenweber.

Mr. Cox moved to amend, by referring the memorial to the Committee on Federal Relations.

The amendment prevailed, and the motion as amended was adopted.

Mr. Speaker—I am directed by the President to inform you that he has signed H. B's No. 90 and 142.

And the same are herewith returned.

(Signed)

J. W. STRANGE,
Chief Clerk.

Consideration of H. B. No. 4 having been set for this morning at 10 o'clock, following is the copy of majority report of Committee on Counties.

MAJORITY REPORT.

HOUSE OF REPRESENTATIVES,
SALEM, Oregon, January 27, 1885. }

Mr. Speaker—We, the undersigned of your Committee on Counties, to whom was referred H. B. No. 4—for the creation of Morrow county, and to fix the salary of County Judge and Treasurer, beg leave to report as follows:

Your committee has been put to much trouble in its consideration of the matter, by reason of the indefinite character of the dividing line between Umatilla and Wasco counties, and by reason of the failure of those interested in this bill, and H. B. No. 55 to agree upon division lines, and after a long discussion of the question involved, it has seemed best to the undersigned to award to Morrow county so much of the territory of Umatilla county, out of which it is to be formed, as can be done, keeping in view the desirability of establishing fixed and definite boundary lines, leaving the Wasco territory for Whitman county.

We also think it best to make that section of the bill which provides for the holding of the Circuit Court for Morrow county more definite and certain.

We therefore recommend that the bill hereto attached be adopted as a substitute for H. B. No. 4, and inasmuch as it seems the people of Umatilla county are very desirous of having their county divided, and that for several years past the subject has been one of great annoyance to the Legislature of this State, we recommend that the bill do pass.

All of which is respectfully submitted.

(Signed)

J. D. CAMERON,

Very respectfully,

JOSHUA J. WALTON,

Secretary of Regents.

We find the management of the school to be in a flourishing condition.

This year there is a decrease in attendance, which, however, can in no way be attributed to any faults in the school or its operation, but is caused entirely by the extreme financial distress of the people in all parts of the State.

There has been a constant increase in the number and variety of studies, and broader and more extended methods of instruction.

The greatest difficulty under which the institution is laboring is *want of room*.

The number and size of rooms are entirely inadequate to their present demands.

Their valuable mathematical instruments are worthless for want of room.

Their most excellent collection of minerals and various features of Geology and the animal kingdom are in a very cramped condition and cannot, with their limited space, be displayed or used to the advantage that their great value entitles them.

Their library of valuable books is necessarily scattered, and has to be kept in the recitation rooms where they cannot be protected as they deserve.

Their chemical laboratory and experimenting room is in the same condition as the others, and being in the same building as all the other valuable property of the institution may some day be the occasion of a loss to the State which cannot be replaced.

For these reasons, and because we believe that the State University is being conducted in a manner that is of great benefit to the State, and in a way that will make it the great center of education for the Northwest coast; and because we believe that money properly invested by the State in developing her educational institutions brings the best returns, we would respectfully recommend that you make such appropriation at this session of the Legislature for increased facilities as will enable this institution to keep pace with the great advancement of our State.

We have examined H. B. No. 2, entitled "A bill for an act to provide for the construction and furnishing of an additional brick building for the University of Oregon, and to appropriate money therefor," and recommend that the bill pass.

We also indorse the recommendations as made in the report of Judge Deady, as President of the Board of Regents, to the Legislative Assembly.

H. B. MILLER,
I. D. HAINES,
On the part of the Senate.
H. DAVENPORT,
CHAS. MILLER,
I. R. SANDERS,
On the part of the House.

Mr. Bilyeu moved to adopt the report.

Carried.

H. B. No. 3 was read the third time.

Upon the question, "Shall the bill pass?" the vote was:

Barnes, Beall, Bilyeu, Black, Bourne, Burton, Cameron, Chandler, Connor, Cox, Craven, Cyrus, Davenport, Dick, Flinn, Gibson, Geer, Gilbert, Hayes, Henkle, Kenworthy, Kuykendall, Leinenweber, Lockett, Lyle, Manning, Miller, Montanye, Morrow, Nelson, Peery, Riddle, Roberts, Rogers, Shelton, Story, Sutton, Taylor, Therkelson, Thompson, Veatch, Wait, Watts, Will, Wilcox, Woodward, and Mr. Speaker—47.

WHEREAS, The Port of Yaquina is situated on the western coast of the State of Oregon about 120 miles south of the mouth of the Columbia river, and is rapidly becoming a commercial outlet of great importance to the State of Oregon; and,

WHEREAS, The recent completion of the western division of the Oregon Pacific Railroad between the Port of Yaquina and the great Willamette Valley, has rendered the early carrying out to their proposed extent of the work undertaken by the U. S. engineers for improving the entrance to this harbor, a matter of great public utility and of common interest to the whole people of Western and Central Oregon; and,

WHEREAS, There has already been appropriated by Congress for this work up to the present session a sum of three hundred and fifty thousand dollars, and the engineer officer recommended the further appropriation of one hundred and forty thousand dollars for the year 1884 on account of the total sum of four hundred and sixty-five thousand dollars, the original estimate for completion of the entire work, and there has been already expended about one hundred and twenty thousand dollars; and,

WHEREAS, Sums exceeding one hundred and twenty-five thousand dollars have been received and credited to the Port of Yaquina for import duties since the year 1883, being in excess of the total expenditures on harbor improvement works up to this date;

Therefore, In order better to economize the ultimate amount of appropriation needed, and also for the earlier completion of a work of national importance much needed by the people of this State in the interests of their rapidly growing commerce, your memorialists pray that the full amount estimated by the U. S. engineers to be required for the advantageous prosecution of this improvement may be appropriated for this purpose.

Mr. Cusick asked and obtained unanimous consent to submit a report from the special committee to visit the Insane Asylum.

Report of committee appointed to investigate the management of the Oregon Insane Asylum.

REPORT.

Mr. Speaker—Your committee appointed under Senate Concurrent Resolution No. 3, to examine into the conduct and management of the Oregon Insane Asylum beg leave to report as follows:

We find the patients supplied with all the necessary requirements for their comfort (so far as the management is concerned), an abundance of wholesome food, and due attention to personal cleanliness; wards neat and clean with as perfect sanitary and hygienic surroundings as is possible under all the circumstances. We were pleased to observe that ample provision is made for mental diversion, so important to this class of unfortunate patients, as in chapel exercises, music, dancing, etc.

The books are neat and accurately kept.

The Asylum should be placed on an independent basis so far as its water supply is concerned. The water main now in use is owned by the State Agricultural Society, and is entirely inadequate to supply the Asylum building with water for ordinary purposes much of the time, and in case of fire the management would be absolutely helpless. There are four towers on the building, in which it was originally intended that tanks of large size should be built. These tanks should be completed and be kept full of water, with hose connecting with every part of the building, with the least possible delay.

Your committee wish to emphasize the importance of an early completion of the sewer by connecting it with the main sewer at the State House. The present deposit of all the sewerage from so large

a building containing so many persons constitutes a source of extreme danger to the health and lives of the inmates as well as the surrounding community. The privy traps also require to be reconstructed.

Your committee also find the appliances for warming the building are sadly inadequate, especially that part of the building warmed by the old brick furnaces, the tops of which are burned out and are constant sources of danger from fire. The old furnaces should be removed and replaced by furnaces which are efficient as heaters and not a constant source of danger.

Your committee would respectfully recommend an appropriation to be applied to the construction of a building suitable for the occupancy of the employes, said building to be disconnected with the Asylum. By so doing the capacity of the main building will be increased, as the front tier of rooms can be used by the patients, and thus obviating the necessity of building an addition for some years to come.

We recommend an appropriation for returning cured patients to their homes.

The laundry is too small, as is also the engine used in the laundry. It is thought the engine may be exchanged on fair terms for a larger one affording the requisite power.

Your committee are of opinion that the construction of a kitchen disconnected with the main building is imperative, as the kitchen now used is located under the main building and the steam and odor of the food permeates the dining rooms and the wards above, and is not only unhealthy, but disagreeable also. The room now used as a kitchen can be converted into a store room to advantage.

We recommend a suitable appropriation for fitting up a room in the building as a pathological museum and laboratory, in which specimens may be preserved, properly labelled and systematically arranged, with a limited history attached to each specimen.

We also recommend that the management be provided with a suitable safe for depositing valuables belonging to patients or employes.

Your committee believe that sunlight and pure air, as well as plenty of exercise, is indispensable for sick or invalids, and recommend that the grounds which are enclosed with a high fence on the east of the main building be suitably enlarged.

We are of the impression that the means for escape in case of fire are inadequate.

We herewith give a summary of about the amounts required by

appropriation for the accomplishment of the changes and improvements as above enumerated.

Water main from Penitentiary and tanks.....	\$ 4,000 00
Completing sewer.....	6,000 00
Furnaces.....	10,000 00
Enlarging laundry and enchanging engine.....	1,000 00
Pathological museum and laboratory.....	500 00
Building for employes.....	4,000 00
Reconstruction of water closets.....	600 00
New furniture.....	500 00
Painting roof.....	500 00
Building kitchen.....	2,000 00
Fence around Asylum.....	1,000 00
Total.....	\$30,100 00

Respectfully submitted,

W. A. CUSICK.
WM. MANNING,
F. T. DICK.

On motion of Mr. Chandler the report was adopted.

REPORT.

FEBRUARY, 1885.

To the Honorable Legislative Assembly of the State of Oregon, in Salem assembled:

We, your committee to whom was referred House Concurrent Resolution No. 3 (b), to examine and report upon the condition and management of the Penitentiary, respectfully submit the following:

We have examined all books and accounts of the aforesaid institution for the whole term included in the Superintendent's biennial report, together with all vouchers drawn, and all items in the invoice bills for which said vouchers were issued. We find the items purchased in all departments to have been uniform and reasonable, both as to prices and quantities. In a few instances we found prices charged rather lower than ruling rates, but in no instance higher. We find the Superintendent's report substantially correct as published, but a few typographical errors were discovered, noted as follows: On double page, recapitulation, being "detailed statement of expenditures from December 1, 1882, to September 7, 1884," whole number of weeks should be 92 3-7 instead of 72 3-7 as appears. Same page, in column of disbursements for "officers and guards," for three months ending September 30, 1883, appearing the third item from top of column should read \$2,641.15 instead of \$2,741.15 as appears. Same page, first number at top of column of total expenditures should read \$6,797.56 instead of \$2,797.56 as appears. In last column for "earnings for quarter ending December 31, 1883, should read \$2,183.65 instead of \$2,270.65 as appears.

Also same column in the two numbers respectively following last above quoted being for quarters ending March 31 and June 30, 1884, should read \$3,133.65 and \$4,841.34 respectively, instead of \$3,219.54 and \$4,843.34 as appears.

Also same page item of "net expenditures deducting earnings" should read \$19,359.07.—24,738.06" instead of "19,857.07—24,738.64," as appears in printed report.

We found the books and accounts neatly and correctly kept, and errors exceptionally few. The most serious found, and the only worthy of mention, was one of ten days in the footings of account of convict labor furnished to the Northwest Foundry Co. during quarter ending March 31, 1884, resulting in a loss to the State of \$4; and one voucher for money paid to discharged convicts, as per requirement of section 26, page 704, of the General Laws, during the quarter ending June 30, 1884, which was drawn for \$5 more than receipts on file call for, but as the vouchers for that quarter have not been paid for want of funds, and having called the Superintendent's attention to the matter, it will, no doubt, be rectified. Both errors, it seems, occurred during the employment of a former book-keeper.

While the food provided is ample and wholesome, it is not extravagant, and we find the general management of the prison to be conducted upon an economical basis and a credit to the administration. We would however recommend the following changes in the domestic arrangements. We find the former clothing of the prisoners is stored in the cupola, which we strongly condemn and recommend its speedy removal therefrom as we consider there is great danger of fire in the present system of storing said clothing.

We also find that the commissary supplies are kept in the basement of the prison, which is not only too warm and close for their good preservation, but the smell arising from them permeates the wards and hospitals above, which is greatly deleterious to the general health of the place. We recommend that a separate building be constructed for their storage, and an appropriation made therefor.

A chaplain should be appointed by the Governor, and a suitable appropriation made for his compensation.

We further recommend that prisoners confined for three years or more be provided by the State with a new suit of clothes upon their discharge.

We find the roof upon the entire building very much decayed, and the water tanks and cupola upon the top have become rotten and unsafe. They should be removed entirely and a new roof constructed.

The wooden stairway, also, leading from the hospital room in the second floor of the main part to the roof greatly enhances the danger from fire, and should be removed and an iron ladder placed in its stead. As no hose is now provided for the prison building, a suffi-

cient amount to extend from the power pump in the foundry should be procured at once for a better protection against fire. The floors of both stories of the central portion of the building are also much decayed and quite unsafe, and ought to be replaced by new.

We find the prison very much crowded. Notwithstanding the improvements made last summer (see pages 5 and 6 of Superintendent's report) there are yet two prisoners in each cell, and twenty-five or thirty more for whom there are no cells. We therefore recommend that the north and south wings be each extended about eighty feet, upon the same size and plans as the present ones; or a sufficient addition made to make room for the addition of one hundred more cells.

Additional workshops, too, should be constructed to meet requirements.

The old stockade is falling down and affords no protection against an outbreak. We think a strong and substantial brick wall should be constructed at once entirely round the premises for the better security of the prisoners.

The Superintendent's family now occupy apartments in the west wing. We think they should be removed, and a building provided for them separate from the prison, and no family hereafter allowed to occupy it as a residence.

The Superintendent frequently receives reports from other prisons and reformatory institutions with solicitations for exchange; and often requests are sent for copies of the laws and rules governing our Penitentiary, and for back numbers of biennial reports. As no provision has ever been made for supplying our prison or authorities with such information he is in every case unable to comply and hence much valuable information is lost, both to our State and the world at large, for want of this exchange of views on systems. We recommend that two hundred copies of the last Superintendent's biennial report be printed for that purpose.

We find the extra expense and liability incurred by the Superintendent in providing increased accommodation, as set forth on pages five and six of printed report, to have been judiciously planned and faithfully and economically executed and though contracted without authority of law, was impelled by the absolute necessities of the case. The amount of indebtedness thus incurred is \$15,328.62 and provision should be promptly made for the payment of it by the State.

We also find the sums advanced by Goldsmith and Lowenburg in accordance with a contract made with the Superintendent for the enlargement of the shops was a wise and prudent measure, and has re-

sulted in a great saving to the State. For particulars of these improvements, and the disbursements therefor, see pages four and five of printed report. This sum, amounting to \$15,897.35, should also be provided for.

C. LEINENWEBER,
GEO. L. STORY,
J. H. PEERY,
JOHN H. SHUPE,
GEO. B. DORRIS,
Committee.

On motion of Mr. Leinenweber, the report was adopted.

MESSAGE FROM THE SENATE.

STATE OF OREGON,
SENATE CHAMBER,
SALEM, February 5, 1885. }

Mr. Speaker—I am directed by the President to inform you that S. B. No. 71 has been reported enrolled.

And the same is herewith transmitted for your signature.

(Signed)

J. W. STRANGE,
Chief Clerk.

The Speaker announced that he was about to sign S. B. No. 71, and shortly afterward announced that he had signed the same.

Mr. Lewis asked consent to introduce a report from the Committee on Cascade and Locks.

Granted.

REPORT.

HOUSE OF REPRESENTATIVES,
SALEM, February 3, 1885. }

To the Speaker of the House:

Your joint committee, appointed to visit, examine, and report concerning the condition of the government work on the locks now in process of construction at the Cascade falls in the Columbia river, with a view to memorializing the Congress of the United States with reference to their speedy construction and the appropriations therefor, have discharged that duty and would respectfully report:

That there is now under process of construction at the point indicated, one lock ninety feet wide by four hundred and sixty-two feet in length.

That the lockage to be secured thereby will be from extreme low water mark to a rise in the river of twenty feet. When completed, the Columbia river will be navigable from its mouth to The Dalles, a distance of two hundred miles, during the months of August, September, October, November, December, January, February and March.

As yet there has been no preparation made for the construction of a high water lock. In order to admit of navigation during the entire year, a high water lock must be constructed. It can be constructed at any time after the completion of the low water lock.

What work has been done seems to be substantial, and in accordance with the plans approved by the officers of the United States government.

Of the appropriation heretofore made, there remains unexpended some fifty thousand dollars---said sum is grossly inadequate to complete the work.

From all the data obtainable, your committee became convinced that it would cost about one million dollars to complete the work, and that said sum should be appropriated at the rate of five hundred thousand dollars per year, in order that the work may be carried on successfully, and that steamboats and other water craft can pass and repass the locks during the entire year. We therefore recommend that the Congress of the United States be memorialized to appropriate, as soon as possible, the said one million dollars to complete the canal and locks at the Cascades of the Columbia so that they may be of service during the entire year; and also that, by the same memorial, the said Congress of the United States be urged to make a further and sufficient appropriation for the construction of locks and canals at "The Dalles" of the Columbia river, to the end that said river may be freed from all obstructions which prevent its successful navigation at this time.

Respectfully submitted,

W. McD. LEWIS,
E. H. WOODWARD,
R. A. LOCKETT,
S. M. PENNINGTON.

On motion of Mr. Craven, the report was adopted.

Mr. Black asked for and obtained a leave of absence for the afternoon.

HOUSE BILL NO. 80.

Introduced by Mr. Story and read a first time January 19, 1885.

A bill for an act to provide for the construction to the city of Portland of the uncompleted portion of the narrow guage system of railways now in operation in Western Oregon, and to provide terminal facilities therefor upon the public grounds within said city.

WHEREAS, By an act of the Legislature of this State passed upon the 22d of October, 1880, there was granted to the Oregonian Railway Company, limited, certain rights, privileges, easements and prop-

erty in and to the public levee of the city of Portland as public grounds, under the control of the people of Oregon, and upon the express condition that the rights therein granted should be wholly forfeited if the said Company's lines of railway in the Willamette valley were not extended to Portland and constructed to said public grounds on or before the first of July, 1882; and

WHEREAS. Said Oregonian Railway Company, limited, did on the first of August, 1881, then lease its constructed lines of railway in the Willamette valley to the Oregon Railway and Navigation Company for the period of ninety-six years, and declared in the lease between it and said Oregon Railway and Navigation Company that it had abandoned the construction of its Portland branch railway; and

WHEREAS, These narrow guage lines are partly unoperated, and have no direct connection with any railway of similar guage to Portland, or ship navigation, and this cause produces loss in rehandling and in cost of trans-shipping freight and passengers to the broad guage railroads, and without the benefit of separate competition lines, hence are of little value to the people located along these lines until extended to Portland, and made accessible to sea-going vessels; and

WHEREAS, A corporation known as the Portland and Willamette Valley Railway Company, incorporated on the 19th day of January, 1885, has offered to construct, and operate, and maintain a narrow guage railway to Portland, and connect the same with that portion now uncompleted; and has also proposed to transport and convey over its railroad from the city of Portland and adjacent counties all public messengers, convicts or prisoners going to or from the State Prison, lunatics going to or from the State Insane Asylum, with their officers in charge, and also transport anywhere over its lines of railway, in case of war, invasion or insurrection, as well as at all other times, for a period of fifteen years, the troops and munitions of war belonging to the State of Oregon upon the terms and conditions hereinafter specified; therefore,

J. W. STRANGE,
Chief Clerk.

SENATE CONCURRENT RESOLUTION NO. 12.

WHEREAS, The following described tract of land has been offered to the United States as a suitable site for the permanent location of the Indian training school, now located at Forest Grove, Oregon. to-wit:

Land bounded and described by beginning at a point 7 82-100 chains west of the center of section 36, T. 6 S., R. 3 W. of Willamette meridian, running thence south 50 6-100 chains along the east line of the land of S. G. R. R., thence in a northeasterly direction along the center of said O. & C. R. R. track to the north boundary of the S. E. one fourth of Section 36, T. 6 S., R. 3 W. of Willamette meridian, thence west along the north line of the south half of said section 36 to the place of beginning, containing 177 32-100 acres, more or less; and,

WHEREAS, Section 355 of the revised statutes of the United States provides that no public money shall be expended upon any site or land purchased by the United States for the purpose of erecting thereon any armory, arsenal, fort, fortification, navy yard, custom house, light house, *or other public building of any kind whatever*, until the written opinion of the Attorney General shall be had in favor of the validity of the title, *nor until the consent of the Legislature of the State in which the land or site may be, to such purchase, has been given*: now, therefore,

Be it resolved by the Senate of the State of Oregon, the House concurring:

That the consent of the Legislature of the State of Oregon to the purchase by the United States of said described land, or any other suitable tract that may be selected by the honorable Secretary of the Interior for the permanent location of said school, be and the same is hereby given.

On motion of Mr. Wait, the House concurred in S. C. R. No. 12.

Mr. Sanders asked and obtained unanimous consent of the House to report from the Committee on Public Lands.

Mr. Black asked and obtained unanimous consent of the House to make two reports from the Committee on Assessments and Taxation.

REPORT.

HOUSE OF REPRESENTATIVES.

Mr. Speaker—Your Committee on Education, to whom was referred H. B. No. 117, beg leave to report that they have had the same under consideration, and would respectfully report it back to the House with the recommendation that it do pass.

S. D. GIBSON.

Chairman.

Report adopted, and H. B. No. 117 was considered engrossed and on its third reading to-morrow.

REPORT.

HOUSE OF REPRESENTATIVES,

SALEM, February 9, 1885.

Mr. Speaker—Your committee, to whom was referred H. B. No. 46, beg leave to report that they have had the same under consideration, and find the following synopsis of facts:

That said Jason Wheeler was a volunteer in the Cayuse war in 1848; that he was wounded in battle with the Cayuse Indians. That an act was passed by the provisional government, approved February 16, 1849, by George Abernethy, then Governor, for the relief of said Wheeler, in the sum of \$750. That such claim is just, and no part thereof has been paid.

They further find this H. B. No. 46 similar to H. B. No. 89 of session 1882, vetoed by Governor Thayer for the following reasons: "That it arises from alleged services under what is known as the 'Provisional Government,' existing under the joint occupancy of the country. The United States subsequently instituted a Territorial Government here, and paid this class of expenses thereof. It should likewise pay the expenses of provisional government, and probably would do so if asked by the Legislative Assembly, or our Representative in Congress. Had the service been rendered the State, and it had realized the benefit thereof, the Legislature might have assumed its payment, but this service was not rendered for the State in any form but for the benefit of a community of persons who saw fit to organize a temporary government for their own protection. Therefore the payment of the service by the State would simply be a gratuity it is under no legal or moral obligation to assume, and its assumption is unwarranted."

And we therefore report said H. B. No. 46 back to the House without recommendation.

J. K. WAIT,
Chairman.

The report was adopted, and the bill was considered engrossed and put on its third reading to-morrow.

REPORT.

HOUSE OF REPRESENTATIVES,
SALEM, February 7, 1885. }

Mr. Speaker—Your special committee appointed [to] visit school for deaf mutes beg leave to report :

That in company with the Senate committee appointed for the same purpose, have visited the school and find the management excellent in every respect.

We find that moneys appropriated for the purposes of the institution have been carefully accounted for and economically expended.

The method of book-keeping employed is simple and efficient.

The different departments visited were as neat and comfortable as they could be in the buildings as they now stand. The school is in need of funds to enlarge its buildings and improve others, and your committee is of the opinion that the State can spend money in no better way than in providing for the necessities of this class of its unfortunate wards.

We recommend that an appropriation be made of not less than two thousand dollars, to be expended in enlarging and repairing the buildings, making this appropriation immediately available.

And we further recommend an appropriation of five thousand dollars a year to meet the running expenses of the school made payable in quarterly installments.

All of which is respectfully submitted,

ALEX. THOMPSON,

REPORT.

HOUSE OF REPRESENTATIVES,

SALEM, February 9, 1885. }

Mr. Speaker—Your Committee on Engrossed Bills, to whom was referred H. B's Nos. 136, 127, 92, 58, 159, 91, beg leave to report that they have had the same under consideration, and would respectfully report them back to the House as correctly engrossed.

F. C. GEER,
Chairman.

Mr. Sanders made the following report from the committee to visit the blind school:

To the Honorable Speaker and Members of the House of Representatives:

GENTLEMEN—We, your committee upon whom has devolved the pleasing duty of visiting the school for the blind, beg leave to submit the following report touching the general condition of the school, its practical working, literary and musical departments, etc.

BUILDINGS.

While the building now occupied by the school is the only suitable one that could be secured in the city for the purpose, it is the opinion of the committee that the Legislature should, at this session, make permanent provision for the blind by the purchase of suitable grounds and erecting thereon a building or buildings which will accommodate the literary as well as the mechanical and industrial departments. This can be done at moderate cost, and will in the long run be the best economy.

INSTRUCTION.

The work of instructing the blind is a most difficult task, as it should be remembered that the instruction given in such branches as English Grammar, History, Geography, etc., is chiefly oral, and, therefore, requires much time and patience. Having forever lost one of the chief aids in the acquirement of knowledge, they are forever shut out from all the ordinary means of mental and physical training.

Again, their great physical infirmity begets and extreme diffidence and sensitiveness which can only be overcome by the careful and attentive teacher. Again, the blind pupil leaves his home and parents to enter the school with a trembling uncertainty of receiving that care and attention which he has always received from indulgent friends.

From these and other considerations it will be seen that there is no class of persons so dependent in life as the blind. Generous provisions has been made for this unfortunate class in every State in the Union and many of the Territories. This is a fact worthy of consideration and it is a tribute to the broad philanthropy of the American people.

The work which the State has undertaken of educating its blind is deserving of the support and commendation of all good citizens. In this connection we give below a list of the several States making direct appropriation during the last year for the current expenses of schools for the blind; and also the value of the grounds, buildings, and apparatus, owned by the States in fee simple.

TABLE OF STATISTICS.

NAMES.	Number of pupils.	Value of ground, buildings, apparatus, etc., owned by the State.	State during current expenses.
Alabama	20		\$ 18,800
Arkansas	44	\$ 20,000	11,500
Georgia	61	75,000	22,300
Illinois	128	157,500	62,600
Indiana	128	354,600	29,200
Iowa	141	250,000	31,500
Kansas	53	100,000	41,900
Kentucky	77	100,000	28,800
Louisiana	23	30,000	10,000
Maryland	83	339,400	25,100
Massachusetts	123	314,500	79,300
Michigan	63	105,000	46,100
Mississippi	35	45,000	10,000
Missouri	90	250,000	28,000
New York	382	732,200	133,800
North Carolina	60		38,000
Ohio	180	500,000	34,800
Pennsylvania	170	187,000	59,700
Tennessee	58	110,000	60,300
Texas	84	75,000	18,710

In the consideration of the above exhibit, it must be remembered that several of these schools have farms whose annual products are a material aid in the support of the students.

INDUSTRIAL DEPARTMENT.

This department has been organized in part only. Its necessities are apparent to the Principal of the school, both for want of the requisite apparatus, tools, material, etc. This department is far from complete. The girls are now taught sewing, knitting, crochet work and the use of the sewing machine. In the old established schools for the blind in the Eastern States, instruction is given to boys in the following trades: Chair-bottoming, shoe-making, basket work, broom-making, mattress-making, coopering, tailoring, carpet-weaving and brush-making. When the time comes that these industrial pursuits can be practically taught, then, and then only, can be said that the

school is fully equipped. Then trades will constitute one of the most important features in the education of the blind. Of the many unfortunate young persons in this State who are blind, there are but few, who, having obtained a practical mental and industrial education, would not be able to make their own way through life by engaging in some honorable pursuit.

BRANCHES TAUGHT.

The regular literary course of study adopted is as follows:

Orthography, Reading and Writing taught by the New York Point system, English Grammar, Natural Philosophy, Arithmetic, mental and written, Physiology, Modern History, Composition and Letter Writing, Music, vocal and instrumental.

RECOMMENDATIONS.

We would recommend that sufficient appropriation be made to purchase tangible apparatus, such as dissected maps of Physical Geography, Philosophical apparatus and other appliances. These appliances are absolutely necessary and should be furnished the school at the earliest possible day. In addition to this, there should be an industrial department established as soon as practicable. This department should contain all necessary appliances for teaching plain and fancy sewing and knitting, and a shop should be provided for the boys and the necessary tools obtained for carpet work, broom-making, mattress-making, coopering, etc. For all of the above purposes, we would earnestly recommend a sum not less than fifteen hundred dollars.

IN CLOSING.

We are pleased to report that the school is under most excellent management. Supt. C. E. Moor and his assistant teachers are doing a noble work that must be seen to be appreciated. It was highly gratifying to your committee to observe the wonderful facility and quick perception of the blind students under the instruction of their kind teachers. We trust that each and every member of the Legislature will visit the school before the close of the session, and that some public opportunity may be granted the members for that purpose.

J. R. SANDERS,
L. H. MONTANYE,
C. B. WILCOX,
House Committee.

Mr. Gilbert called to the chair.

On motion of Mr. Black, the report from the Committee to visit the school for the blind was adopted.

SENATE MEMORIAL AND JOINT RESOLUTION NO. 5.

Resolved by the Senate, the House concurring, of the Legislative Assembly of the State of Oregon:

To the Honorable, the Senate and House of Representatives of the United States, in Congress assembled:

Your memorialists, the Legislative Assembly of the State of Oregon, most respectfully concur in and adopt Senate Memorial and Joint Resolution No. 2 of the Legislative Assembly of the State of Nevada relative to the continued coinage of silver, a certified copy of which is hereto attached and made a part of this resolution.

Resolved further, That a copy of the above resolution be forwarded to each of our Senators and Representative in Congress.

EXECUTIVE DEPARTMENT,
GOVERNOR'S OFFICE,
CARSON CITY, Nev., January 20, 1885. }

Gov. Z. F. Moody, Salem, Oregon:

SIR—At the request of the Legislature, I have the honor to forward to you a copy of Senate Memorial and Joint Resolution No. 2, in relation to the coinage of silver.

Respectfully,

J. W. ADAMS,
Governor of Nevada.

SENATE MEMORIAL AND JOINT RESOLUTION NO. 2.

Introduced by Mr. Briggs, January 5, 1885; read first time; rules suspended, read second time by title, considered engrossed; read third time, passed and ordered printed.

Senate Memorial and Joint resolution relative to the continued coinage of silver.

To the Honorable, the Senate and House of Representatives of the United States, in Congress assembled:

Your memorialist, the Legislature of the State of Nevada, would respectfully represent:

That according to the United States census for the year A. D. 1880 the aggregate population of the States of Nevada and Colorado and the Territories of New Mexico, Arizona, Utah, Idaho, and Montana, amounted to six hundred and thirty-two thousand three hundred and thirty (632,330) inhabitants, and that the taxable property of said States and Territories in the year mentioned amounted to one hundred and seventy-four million two hundred and twenty-two thousand seven hundred and twenty-nine (\$174,222,729). That within all these States and Territories since said census was taken, there has been an increase both in population and taxable property of at least twenty (20) per cent., thus aggregating at the present time a population of seven hundred and fifty-six thousand seven hundred and ninety-six (756,796) inhabitants, and taxable property of the value of two hundred and nine million sixty-seven thousand two hundred and seventy-four dollars (\$209,067,274). That the superficial area of these States and Territories covers an almost boundless extent of rugged and snow clad mountains and dry arid deserts rendering it the most undesirable and inhospitable portion of the United States; a section of country designated by our early geographers as the "Great American Desert." That attracted thither by its great subterranean wealth, a brave, manly and enterprising population first sought and occupied this portion of our common country, subdued the savage Indian and demonstrated that it was not only rich in its mineral wealth but was well adapted to the purpose of breeding and maintaining vast herds of horses and cattle. That to-day at least ninety per cent. of the entire population of these States and Territories is entirely dependent upon the silver mining industry for a support and maintenance, and that ninety per cent. of the taxable property of the States and Territories is directly connected with and dependent upon the mining interest for its taxable value.

That relying upon the pledge and faith of the U. S. Government, to maintain and preserve the present standard value of silver, these people have devoted themselves almost exclusively to the silver-mining interest; have by their perseverance and energy erected costly reduction works; have threaded the entire section with a network of railroad's, which required the leveling of mountains and the spanning of torrent rivers; have built comfortable homes and dwellings; have, by their various improvements added millions of dollars to the taxable property of the nation, and have, within eight years past, added over \$340,000,000 to the wealth of the world.

That these people, in view of the great hardships they have endured in their struggle to reclaim this mountainous and desert country, are entitled to some consideration from the Congress of the United States.

That the suspension of the coinage of silver at this time by the U. S. Government, would effectually deprive all these people of the means of earning an honest living, render them houseless and homeless, and entirely destroy the value of the property they have built up.

That political economy has demonstrated that values of property are determined by the quantum of gold and silver in circulation. The greater quantity of these metals in circulation, the greater revenue will the general government and the several State governments receive, and, should the coinage of silver be stopped, or in any manner curtailed, it will necessarily deprive the government of its revenue to that extent.

That the most persistent advocates of mono-metalism, with all their sophistry and special pleadings, have utterly failed to prove that the coinage of silver, under the act of Congress of February 28, 1878, has in anywise proved detrimental to the best interests of the whole nation; wherefore,

Resolved by the Senate, the Assembly concurring:

That our Senators in Congress be instructed, and our Representative be requested to urge upon Congress to enact such laws as will provide for the free and unlimited coinage of silver, and restore it to its former relative value with gold.

Resolved, That His Excellency, the Governor, be requested to immediately forward a copy of this memorial and resolution to each of our Senators and Representative in Congress, and also a copy to the Governor of each of the silver-producing States and Territories of the Union, and ask of them their earnest and hearty co-operation in our endeavor to avert the calamity that would follow the suspension of silver coinage.

Resolved, That in view of the great peril which is now threatening our chief industry by the suspension of silver coinage, by virtue of laws that may be enacted by the Congress of the United States, we invoke the people of the State of Nevada, regardless of former or present political affiliations, to assemble in their respective mining towns and districts on the 18th day of January, 1885, and then and there elect suitable delegates to represent our State in the Colorado Silver Convention, which convenes in the city of Denver, on the 20th

day of January, A. D. 1885, and take such other action as may be deemed necessary to effect a thorough organization of the friends of silver.

CHARLES E. LAUGHTON,

President of the Senate,

GEORGE I. LAMAN,

Secretary of the Senate,

E. T. GEORGE,

Speaker of the Assembly,

GEORGE H. MORRISON,

Chief Clerk of the Assembly.

Received and filed in the office of the Secretary of State, the 9th day of January, 1885.

HOUSE JOINT MEMORIAL NO. 10.

To the Senate and House of Representatives of the United States of America:

Your memorialists, the Legislative Assembly of the State of Oregon, would most respectfully represent:

That the Alaska Commercial Company's charter, granting the exclusive right to said company to fish for fur-bearing seals in Alaskan waters will expire in the year A. D. 1887.

That upon the expiration of said company's charter, the commercial interests of Oregon demand that no further extension be granted, as trade in American waters should be free to all.

That at present time trade with Alaska has almost entirely been diverted from Oregon by the exclusiveness of said company, although this State, geographically, is the natural outlet for the products of the Alaskan islands.

That by the powers delegated to said company by Congress in its charter, advantages have been taken and every obstruction placed in the way of developing the country, thereby depriving Oregon and the Northwest from the advantages that would accrue if Alaska was free, under proper regulations, to any citizen of the United States to pursue any vocation.

That, at the present, no individual or corporation can do business in Alaska if his or their business in any way competes with the Alaska Commercial Company, and in common justice to Oregon and the whole Northwest that no further extension of special privileges be granted to any company.

That your Memorialists further instruct our delegation in Congress and request the earnest attention of the Honorable Senate and House of Representatives that at the expiration of the said charter with the Alaska Commercial Company that no exclusive charter be granted to any individual or corporation to fish for fur seals in Alaskan waters, and your Memorialists will ever pray.

Committee, on motion, adjourned to meet again subject to the call of the chairman.

February 13, 1885, committee met at the call of the chairman. Present, Senators Myers and Cartwright, Representatives Lockett, McHaley, Peery, Lyle, and Morrow.

On motion, it was ordered that the committee report the appended Joint Resolution and Joint Memorial to your honorable body.

Your committee, having partially searched the records, would respectfully submit: That the time allowed them is too brief to enable them to thoroughly investigate the matter of the grants to said road companies, and they would further represent, that in their judgment the interests of the public can best be subserved by discharging said committee and appointing in their stead the Commissioners mentioned in the Joint Resolution offered by your committee.

Your committee would further recommend that S. T. Richardson be allowed four days work as expert and clerk on said committee, and that six dollars per day be allowed.

Respectfully submitted,

G. W. McHALEY,
Chairman.

On motion of Mr. Lewis, the report was adopted.

Mr. McHaley asked and obtained consent to offer

HOUSE JOINT MEMORIAL NO. 11.

To the Honorable Senate and House of Representatives in Congress assembled:

Your memorialists, the Legislative Assembly of the State of Oregon, would respectfully show and petition that:

WHEREAS, It is alleged that the Willamette Valley and Cascade Mountain Wagon Road Company and The Dalles Military Wagon Road Company, the Oregon Central Military Wagon Road Company have never completed their roads as required by the act granting said lands to said companies by act of Congress;

Therefore, Your memorialist pray that the remaining land not yet patented to said companies be withheld from said companies until after the next regular session of the Legislature of the State of Oregon in January, 1887, in order that said acts may be investigated by said body, and your memorialists as in duty bound will ever pray.

On motion of Mr. McHaley, H. J. M. No. 11 was adopted.

Mr. Lyle asked and obtained consent to offer

HOUSE CONCURRENT RESOLUTION NO. 14.

WHEREAS, It is alleged that the Willamette Valley and Cascade Mountain Wagon Road Company, The Dalles Military Wagon Road Company and the Oregon Central Military Wagon Road Company have not completed their roads as required by law.

WHEREAS, There is not sufficient time during this term of the Legislature to make a thorough investigation of the charges alleged.

WHEREAS, Large bodies of land are claimed by said companies and a thorough investigation thereof is material to the interests of the people of the State of Oregon, now therefore be it

Resolved by the House, the Senate concurring:

That A. R. Lyle, A. D. Haines and G. W. McHaley be, and they are constituted Commissioners to take evidence as to whether said

companies have completed said roads as required by law, and report the evidence so taken, together with their findings thereon, to the next Legislative Assembly of this State.

Any one of said Commissioners is empowered to compel the attendance of witnesses, to administer oaths and take testimony, and to receive affidavits already taken by an officer duly authorized to administer oaths; and if said officer have no seal, said officer shall be identified by the certificate of the County Clerk of the county wherein said officer resides. Each Commissioner shall be entitled to the fee of one dollar for each affidavit taken or filed with him, and ten cents per mile for each mile necessarily traveled. If any vacancy occurs in this Commission it shall be the duty of the Governor to appoint some suitable person residing in the same vicinity as the person whose place is vacant on said Commission.

On motion of Mr. Abshier, H. C. R. No. 14 was adopted.

Mr. Lewis asked and obtained consent to offer

HOUSE JOINT MEMORIAL NO. 12.

To the Honorable, the Senate and House of Representatives of the United States, of America in Congress assembled:

Your memorialists, the Legislative Assembly of the State of Oregon most respectfully represent, that the Columbia river, forming the boundary in part between the State of Oregon and the Territory of Washington and draining the territories of Idaho, Utah and Montana, west of the Rocky Mountains, ranks among the rivers of the United States next in importance to the Mississippi, and is the largest river flowing into the Pacific from any inhabited portion of the American Continent, its tributaries watering about 229,000 square miles of territory; that the Columbia is the only river in the United States admitting deep sea going vessels and ocean steamers, one hundred miles in the interior from its mouth; that the channel of this river affords first class facilities for the navigation of river steamers of large size and for barge transportation for a distance of five hundred miles, or more, obstructed only by two principal rapids and a few reefs and rocks removable by ordinary engineering. The rapids at the Cascades of the Columbia were surveyed some years ago by the military engineers of the United States Government and plans made for the construction of Canal and Locks. Appropriations for the construction of the same have from time to time been made by your honorable body. The works are yet uncompleted and it will require a large sum to complete them in order to make them available as a means of navi-

gating the said river. Surveys have also been made of the rapids called "The Dalles" and it has been demonstrated that they also can be improved by the construction of a canal and locks. The expense of constructing both these works and making all needed improvement in relation thereto would be small in comparison with the great commercial advantages which are sure to follow. The commerce already developed in said river is large. The population and products of the whole country drained by the Columbia river are increasing with amazing rapidity. Wheat, flour, wool and cattle of the aggregate value of over five millions of dollars were conveyed last year to the Pacific seaboard from said region in the cars running on the railway operated by the Oregon Railway and Navigation Company. The construction of the canal and locks at the points indicated would give the commercial and shipping world in this region means of conveying their products by water at fifty or sixty per cent. less freight than is now exacted. An untrammelled water way is the best known moderater of the excessive charges of railway companies.

Your memorialists therefore pray, in the interest of the future development of this country, as well as in the interest of the general commerce of the United States, that Congress grant liberal appropriations for the opening and free navigation of the great Columbia river.

Mr. Lyle moved to adopt H. J. M. No. 12.

SENATE JOINT MEMORIAL NO. 5.

To the Honorable, the Congress of the United States:

Your memorialists, the Legislative Assembly of the State of Oregon, at its thirteenth regular session, would respectfully represent that;

WHEREAS, Some two years since the fine steamer collier, Tacoma, was wrecked upon our coast, near to and within three miles of the mouth of the Umpqua river, whereby several persons lost their lives, and much misery was entailed on many others; that thereafter, and over one year since, a new tug boat belonging to Simpson brothers while entering and ascending said river, ran aground on a sunken ledge of rocks which lie in the apparent channel of said Umpqua river, but by timely assistance was rescued without serious damage; and, that,

WHEREAS, There is a good channel of at least twenty feet in depth from the bar of said Umpqua river to the town of Gardner. some ten miles from said bar, and the lumber trade from this locality is a very important industry; therefore,

Be it Resolved, That said Umpqua river be buoyed from the said bar, up as far as the town of Gardner on said river, in order to prevent the recurrence of disasters, similar to those hereinbefore mentioned; and which have every chance of a disastrous ending; owing to the fact, that the channel of the river at the present time is indistinguishable to strange shipping; and that our Senators and Representatives in Congress be hereby solicited to use all honorable means to secure an appropriation of money by the general Government suf-

ficient to provide for the establishment and maintenance of buoys in the said river, in the manner hereinbefore alluded to; and, also for the purpose of procuring a site for, and of constructing a Light House, at or near the mouth of the said Umpqua river; that the Governor be requested to transmit a copy of the foregoing resolutions to each of our Senators and Representatives in Congress.

PROTEST.

HOUSE OF REPRESENTATIVES,
SALEM, February 17, 1885. }

We, the undersigned, members of said House of Representatives assembled, do hereby enter our protest upon the Journal of said House, against the passage of Senate bill No. 3, which provides for a Constitutional Convention for the purpose of changing the constitution of the State of Oregon, for the following reasons to-wit:

First. That we do so much revere our constitution as a whole, having been framed by our noble pioneers, men of towering intellect, whose whole hearts were wrapped in the desire for the best welfare

of the whole people; men who have not their peers in this commonwealth, and we dread to see the sacred edifice torn asunder, deeming it almost a sacrilege, and a species of vandalism.

Second. That the wise framers of said instrument made ample provision for amendments thereto, inasmuch as two or more may at one time be submitted to the people for their approval or rejection, and they may vote upon each and every proposed amendment separately and distinctly.

Third. That the people of the State of Oregon in convention assembled have never, in whole or in part, by word, act, or deed, expressed a desire that their constitution should be thus rent asunder for the purpose of remodeling or improving.

Fourth. There being no necessity for this wholesale onslaught upon our State constitution, we will not calmly sit by and see the people so imposed upon, especially as the burden to them will be at this unnecessary expense of some \$40,000.

Your committee who have had under consideration the petition of the citizens of Oregon, asking that the obstructions to the navigation of the Willamette Slough be removed, beg leave to report:

That the obstructions complained of, which are placed at the head of the slough, were placed there under the direction of the United States Engineer department, for the purpose of improving the navi-

gation of the Willamette river at its mouth. The report of the United States Engineer, made since the work was done, shows that the improvement has been successful and the ship navigation of the river materially improved. It is the opinion of your committee that the interests of the State require the work complained of should be maintained. There is no doubt that the obstructions complained of are a damage to the people along the Willamette slough, but the advantages are so great to such a large portion of the State that we are of the opinion that the prayers of the petitioners should *not* be granted.

IN THE HOUSE.

Mr. Black, from the committee to investigate the books of the State Treasurer, submitted the following

REPORT.

To the Honorable Legislative Assembly of the State of Oregon:

We, your committee appointed by concurrent resolution of the Senate and House of Representatives, to examine the books and accounts of the State Treasurer, beg to submit the following report:

Having, as authorized by your resolution, employed a competent accountant, the investigation of said books and accounts was con-

ducted by him with such personal assistance from the committee as they were able to spare from their other business.

First. Every receipt of the Treasurer during the past two fiscal years has been compared with the duplicate receipt filed with the Secretary of State, and carefully examined and checked on the Treasurer's report, the total amount of receipts as shown by the Treasurer's books has been found to correspond with the amount charged to him by the Secretary of State, and the balances reported to the Legislature of 1882 have been found to be correctly brought forward, and the present existing balances in the various funds accurately stated.

Second. The disbursements, as reported by the Treasurer, have been verified by detailed examination of warrants produced by the State Treasurer, and each voucher found correct in every particular.

Third. The balances now on hand, as shown by said Treasurer's report, together with balances reported to the Legislative Assembly of 1882, have been compared with the balances as shown by the ledger of the State Treasurer, and found to correspond.

Fourth. The totals of the several funds, both as to the receipts and disbursements, have been carefully examined and verified by this committee.

Fifth. The bonds reported as having been redeemed, together with coupons paid on account of said bonds, have been separately examined and found correctly reported.

Sixth. The loans on account of the various trust funds, and every note and mortgage securing the same, have been carefully examined, and have been found secure in every particular.

Seventh. The bonds deposited as security by the foreign insurance and express corporations have been produced and examined by your committee and are all in the safe custody of the Treasurer.

We find the books and accounts of the State Treasurer neatly and correctly kept, and in all respects to correspond with his printed report with the exception of a few typographical errors in the same.

We recommend the payment of James Walton, the accountant employed by us, at the rate of five dollars per diem.

Respectfully submitted,

T. J. BLACK,

SENATE JOINT MEMORIAL NO. 6.

To the Honorable, the Senate and House of Representatives of the United States, in Congress assembled:

Your memorialists, the Legislative Assembly of the State of Oregon, respectfully represent that the federal offices located at Roseburg and

Oregon City, Oregon, namely, the land offices, the signal service and post offices, occupy private buildings, the rental of which amounts to about one thousand dollars per annum; that the erection by the government of a suitable fireproof building for said offices would be in the direction of economy and retrenchment; that the rent saved thereby, and revenue derived from leasing a portion of such building, would ultimately repay the government for the sum expended.

Therefore we pray your honorable body to appropriate the sum of \$50,000, or so much thereof as may be necessary, to purchase an eligible site and erect thereon suitable buildings for the purposes above mentioned.

REPORT.

CAPITOL BUILDING,
SALEM, February 20, 1885. }

Mr. Speaker—The Committee appointed under House Concurrent

Resolution No. 7 to examine the books and accounts of the Secretary of State and the Board of Commissioners for the sale of School Lands, have the honor to report that they have performed the duty entrusted to them, so far as their other Legislative duties would allow. Your Committee employed Mr. M. C. Athey an expert accountant, to examine the books and accounts of the officers aforesaid, as instructed by said resolution; and we have supervised and directed the more comprehensive examination made by him.

We find the office of the Secretary of State in a very satisfactory condition; the records are neatly and accurately kept, and the system of book-keeping has been so simplified as to admit an immense amount of work to be done and permit the business appertaining to the office to be regularly and quickly transacted.

We find that the business of the office increases each year, with the large accessions to our population, and we deem it a great compliment to Mr. Earhart that the vast amount of business of the office has been transacted with such rapidity, as to cause no delay or inconvenience to the public.

The expenditures have been restricted to the amounts fixed by law, and in all matters in which the Secretary has had to exercise discretionary powers, strict economy has been observed.

We believe that the clerical force of the office ought to be increased, adding a clerk to attend to the correspondence, a warrant clerk and a book-keeper, which would allow the Secretary of State to give more attention to board duties.

The Assistant Secretary of State, Maj. Frank E. Hodgkin, has kept the books and accounts in a manner that is exceeding creditable to him—they are very neat and accurate.

The book and document room is immediately under the office of the Secretary of State; is of easy access, and the books and documents therein are well stored, and so arranged as to be easily found.

There are now stored in the book room thirty-eight volumes of reports, consisting of the reports of the United States and Mexican Boundary Survey, and the reports of the expeditions and surveys to ascertain the most practicable and economical route for a railroad from the Mississippi river to the Pacific Ocean, which contains a full scientific report, illustrated with colored plates of the Flora and Fauna of the northwest and southwest, and those volumes are exceedingly valuable, there being but few copies in existence, and this State being in possession of two copies, they ought to be placed in the archives and carefully guarded from injury or loss.

We have examined the books and accounts of the Board of Com-

missioners for the sale of School Lands, which show a marked increase in the business of this office; the business transacted more than doubles that of any previous term. E. P. McCornack, Esq., the Clerk of the Board, is a very efficient officer, and has kept the records and papers in a very neat manner, and the accounts of the office have been kept very accurately. He has received and receipted for \$437,522 63, in sums from \$1 to not to exceed \$2, and transacted all other business incidental thereto, with such celerity and exactness as results greatly to his efficiency as an officer, and commends him to all who have business with the Board.

Your committee would further report that Mr. M. C. Athey has been employed from the 21st day of January to the 20th day of February, both days inclusive, and we recommend that he be paid at the rate of five dollars per day.

Respectfully submitted,

JOSEPH SIMON,
 ENOCH HOULT,
 L. THERKELSON,
 HENRY ROGERS,
 W. H. KUYKENDALL,
 . Committee.

On motion of Mr. Davenport, the report was adopted.

REPORT OF EXPERT ON STATE PRINTING.

*To Messrs. Sutton, Hayes, Barnes, Siglin, Burch and Voorhees,
Joint Committee on the part of both Houses of the Oregon Legislature to investigate the manner in which the printing for the State has been done during the past two years:*

GENTLEMEN—The undersigned, employed by you to examine the above work and report the results of such examination, begs leave to report that he has carefully examined the work done, and that the public printing has been properly executed, and the prices charged were according to law.

I herewith submit a detailed statement, in tabular form, showing respectively the number of bills printed for the session of 1882, number of pages of same, together with cost of composition, number of tokens printed, and cost of press work.

Besides the work set forth in the accompanying statement, there was done a large quantity of miscellaneous printing for the Legislative Assembly, such as roll calls, letter heads, &c., and a vast amount of smaller work which it is unnecessary to enumerate.

There has also been done a large amount of work for the different departments of the State Government, embracing official blanks, documents, letter heads, envelopes, blank books, and blanks of every description.

In all cases where the law fixes the price of work, I find that it has been strictly adhered to, and in cases where there was no price fixed by law, that the charges have been very reasonable.

All of which is respectfully submitted,

ANDREW J. LOCKHART,
Expert.

APPENDIX.

BIENNIAL MESSAGE
OF
GOV. Z. F. MOODY
TO THE
LEGISLATIVE ASSEMBLY.
1885.

SALEM, OREGON.
W. H. BYARS, STATE PRINTER.
1885.

GOVERNOR'S MESSAGE.

Members of the Oregon Legislative Assembly:

GENTLEMEN—In welcoming you to the Capitol of the State to discharge the duties prescribed for you by the Constitution, I can but congratulate you upon the auspicious circumstances under which you meet. Never before in the history of our State have Oregonians had so much to be congratulated upon. No State in the Union is receiving more attention. Her agricultural products, her mild climate, her great natural resources, invite the immigrant, the capitalist and the pleasure seeker, while the sound basis upon which rest her finances, and the fact that within two years her taxable property has increased more than ten millions of dollars, clearly indicates that the State, in the face of a general business depression throughout the land, is in no danger of deterioration or decay.

The Constitution of the State of Oregon makes it the duty of the Governor to report to the Legislative Assembly, at each regular session thereof, the condition of the State, and recommend such measures as shall seem expedient.

The Constitution was adopted at a time when the population of the State was less than 50,000, at a time when its wants and its resources were comparatively unknown. The small State Penitentiary then located at Portland, was almost the only State institution, the agricultural products of our State were hardly sufficient for home consumption, and came almost exclusively from the west side of the Cascade range of mountains. We did not realize that we possessed undeveloped, such elements of greatness. During the years that have since intervened, extraordinary progress has been made. Our population now numbers a quarter of a million. Our State institutions have developed in strength and usefulness. That portion of the State aptly termed the "Inland Empire" has been found to possess equal resour-

ces and possibilities and now contributes an equal share toward the various revenues of the State. Her development is not yet complete, but with the early construction of the locks at the Cascades and The Dalles, the commerce of a continent will traverse all her thoroughfares. We may without boasting and with a pardonable pride, invite comparison with any State in the Union.

Our common school facilities, with an irreducible school fund, ample to give every child in the State a common education, several colleges and institutions of learning that are self-sustaining, a State University, an Agricultural College aided by lands donated for its institution and support, and many important industries including agriculture, lumber, our fisheries, &c., &c., which have made the name of Oregon famous throughout the world, all attest the advance that has been made by our State during her existence of a quarter of a century. This increase in our wealth and resources has added largely to the responsibility of those who are called upon to legislate for the Commonwealth, and perhaps at no session of the Legislative Assembly of this State has there been a greater need and demand for the exercise of wisdom and prudence upon the part of our law-makers. Recognizing the responsibility resting both upon the Legislative and Executive departments, it is our trust that both may be guided by wisdom and moderation, and controlled in every act by a desire to meet, in the fullest sense, the requirements of our respective positions.

FINANCES.

Your attention is first called to a statement of the financial condition of the State. For the figures presented herewith, we have been compelled, as to some minor details, to rely upon unofficial reports, but the figures where not official will be found approximately, if not exactly correct.

For an accurate and complete knowledge of the finances, reference must be had to the very full and comprehensive reports of the Hon. Secretary of State and State Treasurer.

The receipts for the period beginning September 1, 1882, and ending December 31, 1884, are as follows:

Four mill tax of 1882.....	\$255.374	43
Four mill tax of 1883.....	301.227	80
Penitentiary earnings.....	26.055	36
Delinquent taxes.....	6,054	24
Private Insane.....	5,363	71
Idaho Insane.....	4,705	72
Sale of stamps.....	9,657	97

Sale of Books	\$ 598 80
Miscellaneous	43,655 85

Making a total of \$652,693 88

Adding to this amount, the sum of \$122,608.36, which stood in the Treasury on August 31st, 1882, to the credit of the general fund, we have the sum of \$775,302.24 against which is to be charged the amount of the general appropriation made by the last Legislative Assembly, which leaves a balance to the credit of the general fund at the end of the fiscal year just closed of about \$300,000, an excess of \$175,000 over any surplus to the credit of the general fund ever heretofore reported to any Legislative Assembly of the State. This is an approximate estimate but will be found to vary but little from the amount standing to the credit of that fund, as reported by the State Treasurer.

This showing must be regarded as very satisfactory, as the indebtedness of the State, aside from deficiencies which have accrued during the past two years, is wholly provided for from other sources, outside of the general fund.

GENERAL BONDED INDEBTEDNESS.

The general bonded indebtedness of the State has been largely diminished during the past two years, and for a large part of that still outstanding there are funds on hand in the treasury. This indebtedness includes the Umatilla Indian war debt, the bonded debt created by the Act approved October 25, 1880, to complete the payment of the Modoc war bonds, the soldiers' bounty bonds, and the soldiers' relief bonds. Provision was made by the act of October 25, 1880, for the funding of the Modoc war bonds, and to meet the payment of the Umatilla Indian war bonds. This act authorized the State Treasurer to sell the bonds of the State of Oregon to such an amount as, with the surplus moneys not otherwise appropriated which had or might accrue from the three mill tax levied pursuant to an act to provide for a tax to defray the current expenses of the State, and to pay the indebtedness thereof, approved October 20, 1876, would realize enough money to pay the said Modoc war bonds in full, including the accrued interest. This act also provided for the levy of a one-half mill tax to be applied in paying off not only the principal and interest on the Umatilla Indian war bonds, but also the principal and interest upon the new bonds of the State of Oregon thus issued to take the place of the old Modoc war bonds. In pursuance of the authority conferred by this act, the Treasurer sold one hundred and twenty

bonds of the State of Oregon, each being for the sum of five hundred dollars. From the proceeds of the sale of these bonds and from the surplus accruing from the said three mill tax, funds were provided for paying off all of the Modoc war bonds, and said bonds have all been paid except about \$300 which, although advertised for, have never been presented for payment. The new bonds, issued under the provisions of said act of October 25th, 1880, were made payable on or before the first day of January, 1890, at the option of the State. From the proceeds of the half mill tax provided for in said act, the Umatilla Indian war bonds have all been paid, with the exception of \$733.08 which have been advertised for but which have not yet been presented for payment. From the remaining proceeds of said half mill tax, thirty bonds of the new issue have been paid, leaving ninety bonds unpaid representing an indebtedness upon this account of \$45,000, together with accrued interest. On account of the Modoc war indebtedness there has been refunded to the State of Oregon, by the general government, the sum of \$70,000, of which amount the sum of \$37,019.01 was paid in cash, and the balance was applied to meet the amount due from the State of Oregon to the general government on account of the direct tax of 1861.

On the soldiers' relief bonds there remains unpaid but \$761.10, and money to meet this amount is in the treasury, and readiness to make payment of same has been advertised.

Of the soldiers' bounty bonds there are still outstanding one hundred and fifty-nine of the denomination of \$50 each.

This constitutes the general bonded indebtedness of the State, and money for the immediate or proximate payment of the same is now available.

In addition to what has already been paid into the treasury of this State on account of the Modoc war claims, there is still a further sum due from the general government on account of the losses sustained by the State in the prosecution of the Umatilla Indian war, which will doubtless be paid in due time and go to swell the coffers of the State.

For more definite and specific information in regard to the condition of the funds available to meet these various claims you are respectfully referred to the report of the Honorable State Treasurer. The character and amount of outstanding liabilities, and resources to meet the same, are therein fully and completely set forth.

SPECIAL BONDED INDEBTEDNESS.

An act was passed by the Legislative Assembly October 21, 1870,

providing for the issuance of bonds to aid in the construction of a canal and locks at Oregon City. This bonded debt was made payable to the Willamette Falls Canal and Locks Co., or its assigns, out of the fund arising from the five per centum of the net proceeds of the sales of the public lands of this State, and the fund arising out of the sales of the five hundred thousand acres of land donated to the State for the purposes of internal improvement. The original amount of these bonds was \$200,000. At the date of the opening of the last session of the Legislative Assembly there was yet outstanding of these bonds the amount of \$68,000. Since that date these have been paid in full.

Of the swamp land warrants there are yet outstanding to the amount of \$87,547.36 with accrued interest. As these are payable only out of the proceeds of the sales of swamp lands their redemption has been necessarily slow, owing to the trouble and delay heretofore experienced in having listed to the State the swamp lands to which she is entitled. The steps taken during the past two years to hasten the approval to the State of the swamp land selections heretofore made are set forth elsewhere. The amount due on the outstanding swamp land warrants is very small as compared with the value of the swamp lands for which the State should years ago have received a patent, and as soon as patent for these lands can be secured from the general government their sale will quickly provide funds for the final disposition of all outstanding swamp land warrants.

LANDS GRANTED TO THE STATE.

For a full and specific statement in regard to the condition of the various land grants belonging to the State, I must refer you to the report of Hon. E. P. McCornack, Clerk of the Board of School Land Commissioners.

The ninety thousand acres of land granted for the State Agricultural College, and the seventy-two sections set apart for the State University have been selected and secured in full to the State. The proceeds of the sales of these lands, and of the lands set apart for the support of common schools, have been carefully loaned by the Board, are safely secured, and are bringing in a large and constant revenue for their respective funds.

The amounts of these funds are as follows:

University fund principal	\$ 78,000
Agricultural College fund principal	77,000
Common School fund principal	980,000

Of the different classes of land belonging to the State there has been sold since September 1, 1882, as follows:

University lands.....	2,218.26 acres
Agricultural College lands.....	4,559.69 acres
Common School.....	122,646.17 acres
Internal Improvements.....	32,743.13 acres

The revenue from the sale of lands belonging to the 500,000 acres granted to the State by the General Government for the purposes of internal improvements, has been, since the Act of 1870, granting aid for the construction of the canal and locks at Oregon City, devoted to the payment of the principal and interest upon the bonds for \$200,000 issued in aid of that work. These bonds have been paid in full, principal and interest, and the revenue hereafter arising from the sale of these lands will be devoted to the support of the Common Schools of the State.

SWAMP LANDS.

The law governing the selection, approval and disposition of the swamp lands granted to the State of Oregon by the Act of Congress of March 12th, 1860, has been a constant source of vexation in the past and is likely to prove a source of much litigation in the future. For years past this State has been making earnest and persistent efforts to secure a patent for the swamp lands to which she is entitled under the provisions of said Act of Congress, but thus far with comparatively little success.

The method adopted for determining what lands inure to the State under the provisions of said Act has contributed largely, if not almost altogether to the vexatious delays which have attended this matter in the past. But a short time after my accession to the Executive Office a communication was received from the General Land Office, returning as insufficient, proofs upon upwards of 100,000 acres of what was claimed to be swamp land, which had been prepared and forwarded during the administration of my predecessor. The objections offered to the proofs were felt to be without reasonable foundation, but the State was without recourse, and preparation of new proofs was absolutely necessary. The State might have less reason to complain if action could have been secured upon lists in the General Land Office upon which the proofs were complete and regular, but notwithstanding the most persistent efforts made upon my part to secure action upon large lists against which no objection has been urged by the Department the General Land Office has failed to take action.

The plan heretofore adopted for determining the character of, and

the right of the State of Oregon to lands claimed as swamp has provided for the submission of the sworn statement of two reputable witnesses familiar with the land claimed, showing the land to be swamp or overflowed. This proof is filed in the Executive Office, and is the basis upon which the Governor proceeds to make formal selection of the land described. The proof thus filed accompanies the formal selection and is forwarded from the Executive Office to the Surveyor General, who in turn passes upon and forwards it to the General Land Office at Washington. An Examining Agent is thereupon appointed by the General Land Office to proceed to the field, and, in conjunction with an agent appointed by the State, make an examination of the lands covered by the proofs filed. During the administration of Governor Thayer this work was prosecuted by Gen. R. C. Ankeny, acting on behalf of the General Government, and Dr. J. C. Whiteaker on behalf of the State. Prior to the expiration of Gov. Thayer's term Gen. Ankeny had been succeeded by Mr. P. I. B. Ping, and during the summer of 1883 the work of examining the swamp lands was continued by Mr. Ping in conjunction with Mr. H. H. Hewitt, who had in the meantime been by me appointed the State Agent. During the season of 1883 Messrs Ping and Hewitt examined and approved as swamp and overflowed, and as enuring to the State of Oregon, 2,226.08 in the Dalles District, and 17,143.65 acres in the La Grande District. Their favorable report was promptly forwarded to the General Land Office, but no further action has yet been taken by the department, notwithstanding the efforts of our State Agent in Washington and our delegation in Congress.

During the summer of 1884 much valuable time was lost which should have been devoted to the work of examining lands, but owing to the fact that there was no agent of the Government in the State the work could not proceed. Late in the season Mr. H. C. Bulis appeared to represent the Government, and in company with the State Agent, examined a tract of 3,000 acres in the Oregon City District, (which list has since been approved by the Secretary of the Interior) and immediately afterward returned to the East.

Since the 1st of September, 1882, there has been selected by me 141,298.67 acres of swamp and overflowed land enuring to the State, and proofs of the swampy character of the same have been forwarded to Washington. No action, however, has yet been taken by the department upon these lands. The progress made during the past two years in the matter of the swamp land grant is not satisfactory, but we feel that no reasonable effort has been spared on the part of

the State. On the first day of February, 1884, a long and urgent communication was addressed by me to the Honorable Secretary of the Interior calling his attention to the tedious delay to which the State had been subjected in her endeavors to secure a final adjustment of her swamp land grant, and urging upon him the adoption of some more speedy and efficient plan of operations. His attention was called to the fact that the law imposed upon the Secretary of the Interior, himself, the duty of preparing all lists and making all plats and setting apart to the State the swamp lands to which she was entitled, and that any work of this character assumed by the State was entirely gratuitous. It was further urged that "the present plan of taking evidence *ex parte* be entirely dispensed with, and that the agent of the Government and the agent of the State, acting together, be empowered to take proofs of the character of lands claimed under this grant, receiving such evidence as the department may require and passing upon its sufficiency, all of this to be supplemented by their own observations and examinations—the proofs to be prepared in accordance with a plan suggested by the Interior Department and accepted by the State, and the decision of the two agents, acting together, upon proofs thus prepared to be accepted as final, and insure issuance to the State of patents for all undisputed lands, providing the evidence accompanying each report be sufficient to sustain it." In all cases of disagreement the character of the land in dispute might be determined by such other method as the law might provide.

It would seem that by the adoption of some such plan as that outlined above, two energetic agents might in one season examine and pass upon almost the entire swamp land grant of the State. Concerning the possession of the great bulk of the swamp and overflowed lands as against the State, there is no contest whatever, and the character of the lands is the only question to be considered and determined. The longer, however, the settlement of the question is delayed, the greater are the complications which are likely to arise. Nearly all of the swamp and overflowed lands which have been surveyed have been selected by the State and proper proofs of swampy character forwarded. The delay, however, of the General Land Office to act upon these selections is tempting many to file upon these lands in the different United States local land offices and appear as contestants against the State. These complications should, if possible, be avoided and a speedy settlement of this long vexed question be secured. The acquiring of a great area by the State, seems now, from every point of view, to be of less importance than the immediate determining of the title of the State and the securing of quiet possession to those claiming under the State, and to relieve settlers claiming under the home-

stead and pre-emption laws from the expense and delays incident to a contest with the State.

INSANE ASYLUM.

* At the commencement of my term of office, the building at present occupied and known as the Oregon State Insane Asylum was incomplete. The insane of the State were under the care and control, at East Portland, of Mrs. J. C. Hawthorne and Dr. S. E. Josephi, as representatives of the estate of the late Dr. J. C. Hawthorne, who for so many years had, under contract with the State, cared for these helpless wards. The Legislative Assembly, at its last session, authorized the Governor of the State to extend the contract with Mrs. Hawthorne and Dr. Josephi for keeping the insane until such time as the State asylum building should be so far completed as to warrant the removal of the patients thereto. The date of the completion of the asylum building could not be definitely determined, and owing to the remarkably busy season and the unusual demand, elsewhere, for labor and material of all kinds, the building was not in readiness as soon as had originally been contemplated by the architect. A contract, however, was entered into with Mrs. Hawthorne and Dr. Josephi, for the care of the insane until such time as the State might be able to assume control, it being conditioned that the State should give ninety days' notice of their readiness to assume the care and control of the patients.

The insane asylum building was reported by the architect to be in readiness for the reception of the patients late in October, 1883, and preparations for their immediate removal were made by the Board of Trustees of the asylum, consisting of the Governor, Secretary of State and State Treasurer. The removal was successfully accomplished, without accident, on the 23d and 24th days of October, 1883.

Thanks are due to Dr. Josephi and Mrs. Hawthorne, for courtesies extended and advice and assistance rendered at the time of the removal of the patients, and too much credit cannot be awarded to Hon. John Kenworthy and Mr. W. J. Beatty and their assistants, for efficient services upon the same occasion.

The number of patients received at this time was 268 males and 102 females. Among the patients thus received were the insane of Idaho Territory, who had been previously kept, under private contract, by Dr. J. C. Hawthorne and his successors. Just prior to the removal of the patients to Salem, a contract was entered into with the authorities of Idaho for the keeping of the insane of that Territory, at our State asylum, for the sum of \$6 per week per capita. The authority for entering into this contract is not clear. The insane of that Territory, however, had been cared for under private contract with Dr. J.

C. Hawthorne and his successors, and it was the desire of the authorities of Idaho, that, upon the final transfer of the Oregon insane to State control, the insane of that Territory should find a home in our State asylum, until other provision for their care could be made. In view of this fact, and the further fact that the Idaho insane could be cared for at a reasonable profit to the State and without detriment to any interest, whatever, the contract named was entered into.

For the care and maintenance of these patients, from the date of their reception to the 1st day of November, 1884, there has been paid into the treasury of this State, by the Territory of Idaho, the sum of \$4,705.72.

Owing to extreme dry weather and a general shortness of crops in 1883, almost all kinds of produce necessary for the use of the patients was scarce and unusually high. The asylum farm was not at that time in a condition to furnish needed supplies. It was necessary to purchase from private parties, almost everything needed, and the various disadvantages usually arising at the inception of every new enterprise, tended to make the expenses of the institution excessive. It is gratifying to note, however, that notwithstanding these disadvantages, the cost per capita for the keeping of the insane since their removal to the State asylum, has been reduced to less than \$3 per week, a saving of more than \$2 per week upon former contract prices. It is confidently believed that with the experience of the past year, and with added facilities for the raising of supplies upon the asylum farm, the cost of the management of the institution will be still further largely reduced in the future. This reduction of expenses has not been at the expense of the comfort of the patients. The asylum building was modeled upon the best plans and could scarcely be improved upon, and in the matter of food, clothing and medical attendance the condition of the patients is all that could be desired.

I would respectfully urge upon you the necessity of constructing a water main for the asylum to connect with the penitentiary pumps. The present supply of water, which is furnished by a main belonging to the State Agricultural Society, is inadequate to meet the wants of the asylum. This main is not in good repair, and the ordinary wants of the asylum and proper precaution against fire require the construction of a new main. The health of the inmates of the asylum, as well as the health and comfort of residents of the neighborhood, urgently calls for the construction of a sewer to connect the asylum with the main sewers of the City of Salem. For further recommendations in regard to the needs of the asylum, your attention is called to the report of the trustees and that of Dr. H. Carpenter, the Medical Superintendent.

STATE PENITENTIARY.

For a detailed statement of the management of the State Penitentiary during the two years last past, your attention is respectfully called to the report of the Superintendent.

At the last session of the Legislative Assembly, a law was passed authorizing the Superintendent of the Penitentiary to contract for the leasing of convict labor at a rate of not less than 40 cents per day for each convict. Under the authority conferred by this law, a contract was entered into between the Superintendent and Messrs. Goldsmith & Lowenberg, of Portland, whereby the latter agreed to employ all of the convicts fit for labor and not needed for the purposes of the State. In order to make this contract available, it devolved upon the State to erect buildings suitable for shops. Without some such step the utilization of the convict labor was impossible. For the erection of shops the sum of \$2,000 was appropriated at your last session. After the adjournment of the Legislature it was found that the appropriation was entirely inadequate to meet the requirements. Additional shops have since been erected to meet what appeared to be an absolute necessity. A detailed statement of this matter will be found in the report of the Superintendent.

Upon my assumption of the duties of Governor of the State, I found that in the conduct of the Penitentiary in preceding years various additions and repairs had been made in the buildings and upon the grounds from time to time, sufficient only, however, to bridge over present necessities. Few, if any of the changes and repairs made were of a permanent character. Repairs had been made, evidently, with the idea of answering a temporary purpose, and to meet the requirements of the institution until such time as the State might be able to incur the expense of additions and improvements of a more permanent character. So far had this course been followed that the security of the prison was endangered. A general overhauling was found necessary, and provisions for additional cell room became an absolute requirement. As the report of the Superintendent will show, the number of convicts had increased from 178 on August 31st, 1882, to 256 on September 7th, 1884. Since the last named date the increase has been in equal ratio. In view of this lack of facilities for the accommodation of the rapidly increasing number of convicts, one of three things became necessary: The incurring of an indebtedness for additional accommodations; the pardon and discharge of an unwarranted number of the inmates of the prison; or the convening of the Legislature in extra session to provide measures of relief. Deeming it the only prudent

and economical course, it was resolved to provide additional cells, and trust to the Legislature at its present session for the means to meet the expenditure thus incurred. Forty-four additional cells and three dungeons were thus provided for, and yet, notwithstanding these additional accommodations, the prison is so crowded as to interfere with the discipline as well as the comfort and health of the inmates. I respectfully urge upon your attention the suggestions of the late Supt. Stratton, in regard to this matter, and cordially approve of his recommendations, that a wing be added to the prison upon the east side, and that a brick stockade be erected about the grounds. Additional protection is imperatively demanded, and the wisest economy, it appears to me, requires that the stockade should be built of brick. The large surplus of brick now on hand can thus be utilized, and a stockade of a permanent and substantial character will be provided. The management of the penitentiary during the past two years has been efficient and economical. The officers have been diligent in the discharge of their duties, guarding well the sanitary condition of the inmates, so that notwithstanding their crowded condition, no epidemic or contagious disease has made any inroads, a result which is largely due to the competent medical service provided. The food has been abundant and substantial, and the discipline, while exact, has always been tempered with mercy. Only upon one occasion has there been a serious attempt upon the part of the convicts to escape from the prison, and this was met in such a manner that a repetition has not been attempted. This outbreak occurred on the 3rd day of July, 1883, and of the number engaged in it, fourteen persons escaped from the prison yard. Four of these were shot down by the guards, and died instantly, or within a few hours. One other was killed in an attempt at his recapture. Two or three were wounded, and but one succeeded in making good his escape. It is proper to add, in this connection, that the guards showed in this affair, a commendable coolness and determination, and that the taking of life was resorted to only when it became a deplorable necessity, and was demanded to prevent a general stampede of the convicts. The report of the Superintendent is made out with such fullness, that any detailed reference upon my part to the internal management of the Penitentiary would be superfluous. The disadvantages under which he has been compelled to labor, and the slightly increased expenditures which have been necessary in certain departments of his work, are fully and satisfactorily set forth in his report.

Submitted herewith is a report of the pardons, commutations and remissions granted for the period beginning September 12th, 1882, and ending December 31st, 1884.

A very large number of the inmates of the prison constantly have petitions on file in the executive office, asking for their release. These petitions are usually largely signed, and not unfrequently contain the names of all or a majority of the jurors by whom the petitioners were convicted. I have seldom felt at liberty to grant the prayers of these petitioners, excepting where there was a showing of newly discovered evidence, tending to show innocence, or strong mitigating circumstances. In almost every case the recommendation of the Judge and District Attorney by whom the petitioner was tried, has been required. The number of these petitions that have been denied admonish me that perhaps injustice has been done in occasional cases, and considering how important to every man are all questions affecting his life and liberty, the determination of these questions should not finally rest in one man. The responsibility is too great, and the likelihood of securing exact justice would, in my opinion, be increased by the creation of a Prison Board, with power to consider all petitions of the kind named, and report their conclusions to the Governor. Other powers and authority relating to prison management might be conferred upon this Board.

REFORM SCHOOL.

One of the most important matters to be considered by you is the provision of some place for the care and proper education of youthful criminals, many of whom have never had, or have been deprived of the comforts of a home, and for want of restraining influences have begun a career of crime. There are numbers of the young in almost every community virtually houseless and homeless, denied many of the most ordinary comforts of life, who are rapidly being schooled in vice and who can only be saved from a career of crime and shame by some act upon the part of the State looking to their reclamation. Forty-four boys under the age of 20 years have been sent to the penitentiary of this State during the past two years. One of these is but 13 years of age, and twenty-five of them are under the age of 17 years. Once there they are compelled to consort with the most depraved criminals. The influences are necessarily bad, and they are likely to leave the prison at the expiration of their terms of sentence, not improved, but rather hardened and more depraved. The strong arm of the State should be extended for the salvation and protection of this class. Suitable provision for their education and elevation is, in my opinion, imperatively demanded.

CONCEALED WEAPONS.

A prolific source of crime is the too common habit of carrying concealed weapons. The presence of a weapon in case of personal encounters always presents a strong temptation for its use, and such use in the heat of passion has come to be too lightly regarded. Anything is to be commended which will tend to repress and restrain this too prevalent habit. If the mere carrying of a concealed weapon were, in public estimation and under the law, branded as criminal, fewer instances of justifiable homicide would be reported from our courts. A stringent law upon this matter is recommended,

PUBLIC INSTRUCTION.

The report of the State Superintendent of Public Instruction is so full and complete that little remains to be said upon topics therein discussed. Your attention, however, is called to the importance of devising some plan by which the rural communities of the State may more generally enjoy the advantages of our common school system. As compared with our more populous districts they work at a constant disadvantage and are denied their proper share of the proceeds of the school tax. The moveable property, for instance, of all of our transportation companies is taxed at the home office of such companies, while the entire country traversed by their rolling stock contributes to their support and assists in swelling their revenue. Some more equitable plan should be adopted whereby the school tax levied upon such rolling stock and other corporate property, might be more satisfactorily apportioned. An education is now within the reach of the humblest and poorest citizen of our State, and it behooves us in every way to foster and encourage our common school system and to legislate wisely for its maintenance and protection. Under the liberal provisions made for our public schools the pathway is made clear for the child of the farmer, mechanic and laborer to any position of trust or honor, and whatever can be done to build up and strengthen the schools of our sparsely settled districts will bless the State at large, and tend to strengthen her whole system.

The reports of Hon. M. P. Deady, President of the Regents of the State University, and Prest. B. L. Arnold, of the State Agricultural College, which are submitted herewith, are so complete that extended reference to these institutions would be superfluous. Their management is dealt with in detail, and the results reported are such as to show the wisdom of the State in their establishment. The importance of fostering and encouraging these, the only two educational institutions receiving State aid, need not be impressed upon you.

NORMAL SCHOOLS.

The two State Normal Schools, situated respectively at Monmouth and Ashland, are reported in a flourishing condition. They have grown in public favor. Their geographical situation renders them of easy access by rail at all seasons of the year, and their locality in the heart of communities known for intelligence and morality, adds to their efficiency.

SCHOOL FOR THE BLIND.

I take pleasure in calling to your attention the report of the Superintendent of the Institution for the Blind, and bespeak for this school your most favorable consideration. The high character of the gentleman who directs the affairs of the school, calls for a careful consideration of the suggestions contained in his report, and a common humanity challenges sympathy for the unfortunate inmates of the school, and will move you to make the appropriation necessary for their care, comfort, and education.

SCHOOL FOR THE DEAF AND DUMB.

For the School for the Deaf and Dumb, I invoke the same kind and generous consideration. The present Superintendent, Rev. P. S. Knight, has for years labored in his capacity as such Superintendent, to promote the efficiency of the school, and to advance the comfort and happiness of the inmates. Many obstacles have in years past beset the pathway of this institution, the chief of which have been want of funds and a lack of proper building accommodations. Owing to the active efforts of the Superintendent, grounds have been secured and commodious buildings for the school provided. Provision for the proper education of the deaf and dumb, as well as the blind, is a public duty. It is the province and duty of the State to extend a helping hand to those to whom nature has denied the capacity to help themselves. If these institutions merit your consideration and are entitled to public support, we trust that no false notions of economy will prevent the appropriation of amounts sufficient to carry them on in a proper way, so that their efficiency may not be impaired, as it has sometimes been in the past.

WILLAMETTE VALLEY AND COAST RAILROAD COMPANY.

An act of the Legislative Assembly approved October, 24th, 1874, provided that "there be and is hereby granted to the Willamette Valley and Coast Railroad Company, or its assigns, all the tide and

marsh lands situated in Benton County," &c., &c. The terms upon which this grant was to become irrevocable were set forth in full in the body of said act. "Among other provisions it was required that said company should fully complete and equip said railroad line from Corvallis to tide water on the Yaquina Bay in said (Benton) County within five years from the approval of said act by the Governor."

By an act approved October 14th, 1878, the previous act of October 24th, 1874, was so amended as to provide that when the President of the Company constructing said road "shall notify the Governor, under oath, that ten miles of said road have been completed, then the Governor shall appoint three commissioners to examine the same, and if said commissioners shall report that ten miles of said road have been completed in a good substantial manner, and furnished with the rolling stock and equipments of a first-class standard gauge, or narrow gauge railroad, then the Governor shall cause the lands granted by the first section of the above recited act to be surveyed, designated and set apart for the benefit of said Company." The last named act further extended the time for the completion of the road for six years from the approval thereof.

In pursuance of the requirements of said act, Mr. T. Egerton Hogg, President of the Willamette Valley and Coast Railroad, under date of August 22nd, 1884, gave under oath to the Governor the notice required of the completion of the first ten miles of said road. Thereupon appointed, September 3rd, 1884, Messrs. John Minto of Marion County, R. B. Cochran of Lane County and Jeremiah Henkle of Benton County, Commissioners to examine said road as provided by the act. They at once proceeded to the work of examination, which was made by them on the 6th day of September 1884, and reported that "ten miles of said railroad have been completed in a good substantial manner, and have been and are furnished with the rolling stock and equipments of a first-class standard gauge railroad; and in particular that the grade of such road has been well and substantially made, and laid with steel rails from the Krupp & Barrow Rolling Mills, of fifty pounds weight to the yard, that the trestles are of good and accurate workmanship and first-class in all respects, that the equipment consists at present of three first-class 48-ton locomotives from the Rogers' works, one 50-ton locomotive from the Danforth works and one 20-ton locomotive from the Grant works, and of a full stock of passenger coaches and freight cars from the Wasson Car Manufacturing works sufficient for a considerable traffic; that the railroad in question is provided with terminal facilities, roundhouse, car shops and other necessary and appropriate buildings." This report having been duly filed in the Executive Office, Mr. Wm. M. Hoag,

First Vice President of said company, made a formal application for the appointment of a surveyor to survey such lands as the company might be entitled to under this Act. It appearing however that the Act did not contemplate that the expense of such survey should be borne by the State of Oregon, no surveyor was appointed by me until assurances were received from said company that the expenses of the survey would be borne by them and that the State would not be held responsible therefor. Said assurances having been given, Mr. Geo. Mercer, County Surveyor of Benton county, was authorized to proceed with the survey. His commission set forth briefly the provisions of the Acts relating to the survey and instructed him that "said survey should connect with and conform to the surveys of the United States adjoining thereto,—that the lands included in said survey should be so fully described as to be readily identified, and that field notes giving the courses and distances and describing the character of the different tracts should be carefully prepared, and that copies of all field notes and plats of all tracts surveyed should be forwarded to the Executive Office without delay." It is understood that the work of surveying is being prosecuted, but no report has been returned to the Executive Office and fuller information upon this matter is not now available.

THE NEW ORLEANS EXPOSITION.

Since the last assembling of the Legislature there has been projected at New Orleans an exhibition known as "The World's Industrial and Cotton Centennial Exposition," which is now in progress. It has received the endorsement and patronage of Congress and it is understood that every State and Territory of the Union has prepared and forwarded an exhibit. No law or appropriation has been made authorizing me to incur any expense in the way of preparing and forwarding an exhibit. However, out of the \$1,000,000 loaned by Congress for the purposes of the Exposition, there was appropriated by the Board of Management of the Exposition the sum of \$5,000 for each State, to be used "for the purpose of aiding in gathering, preparing, transporting and displaying a collective exhibit of the natural resources" of such State.

Hon. Jacob Mayer, of Portland, and Hon. J. D. Lee, of Polk county, were duly commissioned by President Arthur as Commissioner and Alternate Commissioner respectively, for this State. Owing to inability to attend to the duties of the place, Hon. J. D. Lee tendered his resignation as Alternate Commissioner, and upon the recommendation of Mr. Lee and others Rev. T. B. White, of Albany,

was commissioned in his stead. Mr. Mayer secured the assistance of Hon. J. W. Crawford, of Salem, to act in his behalf in the collection, and in the forwarding of Oregon's exhibit. T. F. Oakes, Esq., vice president and manager of the N. P. R. R., on their behalf, telegraphed me that the whole of the Oregon exhibit would be transported over the line of that company free of charge, and the same courtesies were extended by the O. R. and N. Co., and the O. and C. R. R. Co. The assistance of E. W. Allen, Esq., late superintendent of the Mechanics' Fair at Portland, and of M. Wilkins, Esq., late president of the Oregon State Agricultural Society, was secured to accompany the shipment to the Exposition. These gentlemen, together with Mr. J. C. Swash of Union county, were named as Assistant Commissioners and are all now in attendance upon the Exposition. A small appropriation may be asked at your hands to make up any deficit that may arise on this account, but upon this point I am not advised. As the placing of this exhibit will tend to advertise our resources to the world and diffuse information concerning the State, we think that a request for an appropriation to meet any proper and reasonable deficit should be favorably considered.

IMMIGRATION.

The Executive Office is constantly receiving applications for information in regard to the resources of our State. These applications come, not only from all parts of the United States, but from foreign countries. Besides inquiries made by correspondence, tourists and travelers visiting our State make frequent application for publications giving reliable descriptions and information concerning our climate, soil and general resources. Many of the letters received are from business men representing capital and speaking for large numbers who contemplate making their home in this State. The money thus seeking investment could be employed here in various profitable industries, and the large numbers who contemplate making their homes upon this Coast would prove a welcome accession to our population. To encourage an increase in wealth and population is the policy of every progressive State, and a small appropriation for the purpose of furnishing reliable information concerning our resources would certainly prove to be "bread cast upon the waters." Nature has done much for us, and the completion of the various transcontinental railroad lines has attracted universal attention to our State, but without proper effort upon our part, other States and Territories, with fewer attractions of natural wealth, will secure that which is justly ours. Commonwealths that had scarcely an existence at the date of Oregon's admission into the Union, have already far outstripped us in

the race for wealth and population. They have done this by advertising their resources to the world. There is no publication of recent date and no comprehensive compilation of statistics to which the attention of the inquirers can be directed, and there is no recognized source to which they can apply for such information as they desire. Even those who have already come into the State and are at our very doors, often turn back and are lost to us for the reason that they cannot, even here within our borders, secure complete, impartial and trustworthy information. There should be some authorized publications that would meet the inquiries of those contemplating a residence in the State, and such publications should be so placed as to be of easy access to those for whom they are intended. The Portland Board of Trade has recently organized a Bureau of Immigration and is doing gratuitous and effective work in this direction. Reliable statistics, compiled by authority of and paid for by the State, and placed in the hands of this Board and of other associations and individuals, would meet the demands of all inquirers and prove a source of advantage and profit to every section.

Bearing an intimate relation to the question of immigration is that of agriculture, at present the chief employment of our people. It would seem that the time had arrived for us to move in the establishment of something in the nature of a Board of Agriculture. This would serve the double purpose of arousing those engaged in this pursuit to a proper sense of the importance of their vocation and the dignity of their calling, and thus assist in improving our agricultural methods and would lead to the dissemination of valuable information. The importance and necessity of such a Board is left to your judgment, and such legislation as is proper upon this subject will doubtless meet your cordial support. Whatever may be done to build up this great interest, to add to its importance and stimulate its growth, will build up other interests and redound to the advantage of the entire State. In this connection it is proper to consider the work of the State Agricultural Society, which has heretofore, gratuitously published and circulated large numbers of pamphlets setting forth the resources of Oregon. This institution was founded by the farmers of the State and for more than twenty years has been conducted chiefly under their auspices. During that time it has done a work of material value and is entitled to the respectful consideration of your Honorable Body, and we trust that such encouragement of its work as may seem wise in your judgment, and such aid in that work as may be legitimate, will be freely bestowed.

FISH.

Some legislation may be asked, looking toward a change in the present law relative to the protection of salmon fishing. The subject is one of the first consequence, as nearly one-third of the exports of the State is credited to this industry. An indiscriminate abuse of the privilege of fishing is liable to work a serious detriment, and proper safeguards for the protection of this industry should be provided. Without any limitations upon the privilege of fishing, its total destruction would be but a question of time. In the older States, whose streams in the early days so abounded in fish that they were considered inexhaustible, there is now a comparative scarcity, and perhaps not one is entirely stocked with native fish. As large numbers of our people depend entirely upon fishing as a means of livelihood, and as its fate as a permanent industry depends largely upon the safeguards thrown about it, it is to be hoped that this subject will receive the most careful attention at your hands.

At the last session of the Legislature there was appropriated the sum of \$5,000, for the construction of a fishway and ladder at the Willamette Falls, and the Governor was authorized to appoint a Commissioner to superintend the work of construction. In accordance with the authority thus conferred, Hon. Wallace Baldwin, of Benton county was appointed such Commissioner. Since his appointment he has been diligent in his efforts to accomplish the object sought. It was found, however, after an examination and thorough survey of the Falls at Oregon City, that the appropriation was entirely insufficient to accomplish the desired work. As no part of the appropriation could be used until the work was completed, and as the appropriation was insufficient for this purpose, no work except of a preliminary character, such as the making of a survey and the drawing of plans could be accomplished. As the completion of the proposed fishway and ladder is of great importance, I recommend the appropriation of a sufficient sum for that purpose. Your attention is respectfully called to the report of Mr. Baldwin, which is presented herewith.

PUBLIC BUILDINGS.

In the near future the State should take steps looking to the completion of its public buildings. During the last session of the Legislature a bill was introduced providing for diverting the one mill tax originally levied for the building of the State Insane Asylum towards the completion of the State Capitol. This tax had served its original purpose and left a surplus which might appropriately have been

applied towards completing the Capitol. The bill, however, failed. The levy still remaining in force there is now in the Treasury to the credit of this account the proceeds of that levy. Could the accumulation from this tax, now on hand, be diverted to that purpose and the tax levy remain for two years longer, the fund would be ample for the completion of the building. A reasonable State pride would prompt the step, and no objection, as I believe, can be urged upon grounds of extravagance.

CORPORATIONS.

The doctrine holding corporations strictly responsible for all liabilities under the law and recognizing the right of legislative bodies to impose reasonable limitations upon corporate powers, has been firmly established. There should be, and there need be, no conflict between corporations and the people. Properly understood, the true interests of both go hand in hand. There is, however, a public demand for legislation to remedy certain existing evils, and to prevent unjust discriminations. To determine what legislation will correct existing abuses without working injustice either to the people or the railroad and other corporations, requires a knowledge of the expenses, responsibilities and various disadvantages incident to the management of such corporations and a clear understanding of the abuses complained of. Discrimination in rates of transportation may build up or destroy cities and agricultural communities. Favoritism for a place or an interest may impoverish or destroy other places and other interests. The substantial business interests of the State require that the rendering of a service for one patron should rest upon the same footing as the rendering of like service for another, and legislation to accomplish this end is demanded. In framing legislation upon this subject ample field is afforded for the exercise of the highest wisdom of the lawmaker. The business of the carrying companies of the country is one which touches every interest of the community. The merchant, the mechanic, the laborer and the farmer are equally interested in demanding that whatever laws are enacted affecting their complex interests should be based upon exact justice and the most enlightened policy. In the legislation of our sister States it has sometimes happened that measures which were intended to prevent oppression and remedy admitted evils became the cause of greater injuries to the producing class, than those sought to be remedied. I doubt not that, guided by the light of their experience, you will be able to adopt such measures as, while having due regard for the rights of the corporations on the one hand, will on the other afford to the people adequate protection against the abuses of corporate power.

STATE MILITIA.

There is upon our statute books a law providing for the organization of a State militia. Our law upon this subject is, however, imperfect and comparatively inoperative. There is no fund appropriated for carrying into effect its provisions, or for meeting the legitimate expenses of a well organized militia. Under the law, as it stands, there is little to foster and encourage military pride and spirit. If it is the policy of the State to maintain a military force, provision should be made for doing so in an efficient manner.

ASSESSMENT.

The assessment law passed at the last session of the Legislature was returned without my approval for the reason that it repealed a portion of the existing law and made no provision for collecting revenue during the time elapsing between the passage of the Act and the period at which certain of its provisions were to go into effect. Determination of the mode and amount of assessment, as well as the means to be used in the collection of taxes, is the most important matter coming within the purview of legislative authority. Tax upon polls and property being our chief source of revenue, the adoption of an equitable and efficient system of assessment is a matter of vital concern to every business interest. It is idle to argue upon the importance of the matter. The question that concerns the lawmaker is one of methods. No legislation is regarded with more jealousy and suspicion than that which relates to the amount and kind of property to be made liable for taxation, the amount of tax to be levied, and the mode of performing the service of collection.

No one disputes the proposition that taxation should as far as possible bear upon all interests alike and that it should always be limited to the necessities of an economical administration. Our Constitution provides that "the Legislative Assembly shall provide by law for a *uniform* and *equal* rate of assessment and taxation of all property, both real and personal." To tax any one kind or species of property at less than its value, and thus discriminate against other property, is so palpable a violation of the letter as well as the spirit of this instrument as to merit universal condemnation, and yet the constant tendency is in this direction and the wisdom of all our lawmakers in the past has not been equal to the task of securing equity and uniformity. The law makes it your duty as members of the Legislative Assembly to prescribe such regulations as will secure just valuations of all property not exempt from taxation by the provisions of the statute or the Constitution. There is, however, almost univer-

sal and, as I believe, well grounded complaint of irregularity, inequality and injustice in assessing and of inefficiency in the work of fixing the real taxable value of certain classes of property, notably real estate and railroad property, and property covered by mortgage liens. It requires an appropriation of at least \$200,000 per year to carry on our State government, and this amount must be raised by taxation whether the property of the State be assessed as at present at \$78,000,000, or at its real value, which is at least \$150,000,000. At the low valuation fixed by the Assessors the levy must be double what it would be if property were assessed at its real value. It is the same to the tax payer whether the rate of taxation be higher and the valuation lower, or the taxation lower with a corresponding rate of increase in the valuation, but to the inquirer abroad who may think of seeking a location in our State it appears far better where the property of the State is reported at its actual valuation and the rate of taxation is low.

I can but suggest these facts and leave the remedy to the practical judgment and experience of you Senators and Representatives, fresh from daily contact with the whole people of the State, and familiar with the workings, in your various localities, of our present inefficient system. Until some practical measure is agreed upon and embodied into the laws of the State, providing for an equitable distribution of the burdens of government among all holders of property, subject to taxation, this issue will remain. Such attention to this subject as its great importance demands, is earnestly recommended.

REGISTRY LAWS.

Your attention will doubtless be called to the necessity of a registry law. The importance of some legislation of this kind has long been felt. Any measure calculated to prevent an abuse of the elective franchise and to secure complete fairness and honesty in the conduct of our elections, should receive the encouragement and support of every patriotic citizen. Every safeguard possible should be thrown about the ballot box, so that every citizen may feel, in casting his vote, that it has been cast to some purpose, and will exert its proper influence. Nothing is of more importance to a free commonwealth, to insure its integrity and permanence, than good election laws and a wise and efficient regulation of the elective franchise.

ATTORNEY GENERAL.

It is believed that the best interests of the State require the creation of the office of Attorney-General. This has long been the uni-

form opinion of those who have considered the disadvantages under which the State labors in the matter of securing legal counsel. It has been found necessary to create such an office in nearly every State in the Union and the same necessity exists here as elsewhere. Even here many municipal corporations have their regularly elected or appointed attorneys. In the past, the State has paid large sums as attorney fees, and questions of law are constantly arising in the administration of State affairs in which the advice of able counsel is essential. It is often the duty of the various District Attorneys to appear and act on behalf of the State in cases outside the ordinary sphere of their work. The services thus rendered by them, however, is viewed rather as an incidental matter and does not, and in the very nature of things cannot, receive the attention which should be given to it. In order to secure efficient legal counsel upon the various questions which are constantly arising in the administration of the affairs of the State, the creation of this office is of the utmost importance, and action upon this question upon your part is recommended.

APPORTIONMENT.

In my inaugural I called attention to the importance of a new apportionment in the membership of the Legislative Assembly, based upon the last preceding government census. No action upon this question was taken by the last Legislature, and I trust that the matter will receive your attention. Our State Constitution, Article 4, Section 6, provides "that the number of Senators and Representatives shall, at the session next following an enumeration of the inhabitants by the United States or this State, be fixed by law and apportioned among the several counties according to the number of white population in each." No apportionment has been made in this State since the session of 1872. Since that date the relative population of the different counties has radically changed. Under the present apportionment, certain counties have the same representation in the Senate upon a basis of less than 600 votes cast that other counties have upon a basis of between 3,000 and 4,000 votes cast. A similar disparity exists in the House of Representatives. The injustice of continuing an apportionment which deprives a large proportion of the people of the State of their just representation in the halls of legislation is so plain as to require no comment.

CONSTITUTIONAL CONVENTION.

Our State has reached a point in its history at which it is apparent that certain changes in its Constitution are desirable. The wants of the State are in many respects entirely different from what they were at the date of the adoption of our present Constitution. In all of its various internal affairs, as well as in its relation to the other States of the Union and to the world at large, radical changes have occurred. To meet this new order of things many changes, not only in our statutes passed under authority of our present Constitution, but in the organic law itself, are demanded. I am aware that the adoption of a new Constitution is often fraught with many dangers and the responsibility of those charged with a work of that kind is very great. No time is more propitious, however, for such a work than while the people are not convulsed with any great overshadowing question. Under such circumstances they are able to address themselves to the task with a full sense of the responsibility resting upon them and unbiased by strong partisan considerations such as have sometimes marred the work of our sister States. It is unnecessary to call particular attention to the many changes in our Constitution which appear to be desirable.

LEGISLATION.

By the terms of our Constitution it is provided that members of the Legislature shall receive pay for no more than 40 days during any one session. The compensation is small and there are few members that desire or can afford to remain in attendance upon a session longer than the time prescribed. The time at best is short. In two terms out of three the interest and excitement incident to the election of a U. S. Senator is naturally attended with neglect of other important subjects and undue haste in the dispatch of business in the closing days of the session. To avoid this evil of hasty and poorly considered legislation it is important that you should apply yourselves promptly and vigorously to mature and perfect the most important legislation at the earliest practicable moment. By so doing an opportunity is given to all to examine and acquire an understanding of such measures as they are called upon to consider, and the work of both the Executive and the Legislative Department is better matured and likely to better meet the wants of the people.

Although having called attention to a number of important matters that will require your consideration, I have doubtless omitted mention of many that may present themselves to you. I can only as-

sure you of the willingness of the Executive to join in whatever legislation may be deemed necessary or expedient. The people will closely watch our work as public servants and intelligently criticise. Let us guard well against any appropriation of the public moneys not required for the need of the State, and if possible enact only such legislation as the public service demands. Called, as we have been, by the people and from the people, to discharge important public trusts. let us consider well the importance of our work and the high responsibility which attaches to it, trusting that under the guidance of the Divine Ruler error may be avoided and the best interests of the State subserved.
